## Summary

Passionate and results-driven programmer with over 5 years of experience in full-stack development and data science. Adept at leveraging advanced skills in AWS and database management to create scalable and efficient applications. Proven track record in delivering high-quality projects on time and within budget, with a strong focus on user experience and performance optimization. Seeking opportunities to utilize my diverse skill set in a challenging role that fosters growth and innovation.

---

## Experience

### Software Developer

*Tech Innovations Inc., Vegafort*

*June 2020 – Present*

- Developed a **Content Management System** that improved the content update process by 40%, allowing non-technical team members to manage site content independently.
- Led a team of 5 developers in creating an **E-commerce Platform** that achieved a 30% increase in sales within the first quarter of launch, integrating features such as real-time inventory tracking and user-friendly checkout processes.
- Implemented AWS solutions to enhance application scalability, resulting in a 50% reduction in server costs.
- Utilized Git for version control, ensuring seamless collaboration across multiple projects.

## **Junior Developer**

*Creative Solutions LLC, Vegafort*

*January 2018 – May 2020*

- Assisted in the development of web applications using **JavaScript** and **Java**, contributing to a 25% improvement in application speed through code optimization.
  - Collaborated with the data science team to analyze user behavior, leveraging **PostgreSQL** to create insightful reports that informed marketing strategies.
  - Enhanced database performance by identifying and resolving bottlenecks in **MySQL** queries, which improved data retrieval times by 20%.
- 

## **Skills**

- **JavaScript:** Intermediate
  - **Java:** Intermediate
  - **Data Science:** Intermediate
  - **AWS:** Expert
  - **PostgreSQL:** Intermediate
  - **MySQL:** Intermediate
  - **Git:** Advanced
  - **Redis:** Advanced
  - **Go:** Advanced
- 

## **Projects**

### **Content Management System**

- Developed a user-friendly CMS that allows clients to easily manage their website content without technical assistance.
- Integrated role-based access control, ensuring content security and integrity.

### **E-commerce Platform**

- Spearheaded the development of a dynamic e-commerce site, focusing on responsive design and seamless user experience.
  - Implemented payment gateway integration, supporting multiple payment options and enhancing customer satisfaction.
-

## Education

### Bachelor of Science in Computer Science

*Vegafort University, Vegafort*

*Graduated: May 2017*

- Relevant coursework: Data Structures, Web Development, Database Management, Cloud Computing.

---

## Certifications

- AWS Certified Solutions Architect – Associate
  - Microsoft Certified: Azure Data Scientist Associate
  - Oracle Certified Professional, Java SE 11 Developer
- 

## Additional Information

- Actively contribute to open-source projects and engage with the programming community through local meetups and online forums.
  - Passionate about continuous learning, currently exploring emerging technologies such as machine learning and blockchain development.
