**Location:** Justinberg

---

## Summary

Dynamic and detail-oriented programmer with over 5 years of experience in full-stack development, specializing in building robust web applications and scalable cloud solutions. Proven track record of successfully leading projects from concept to deployment, with a focus on delivering high-quality software that meets user needs. Passionate about leveraging modern technologies to solve complex problems and enhance user experiences.

---

## Experience

### Senior Software Developer

**Tech Innovations Inc.** — Justinberg, TX

*March 2021 - Present*

- Led the development of a **Machine Learning Pipeline** that improved data processing speed by 40%, enabling quicker insights for business intelligence teams.
- Collaborated with cross-functional teams to build an **E-commerce Platform**, resulting in a 30% increase in online sales within the first quarter post-launch.
- Utilized **Django** and **Vue.js** to create a responsive user interface, enhancing customer satisfaction ratings by 25%.

### Software Engineer

**Creative Solutions Ltd.** — Justinberg, TX

*June 2018 - February 2021*

- Developed a **Mobile App** that achieved over 10,000 downloads within the first

month, utilizing **FastAPI** for backend services. - Implemented a **Data Analytics Dashboard** that provided real-time insights, leading to a 20% reduction in operational costs through data-driven decision-making. - Contributed to backend services using **Go**, enhancing application performance and scalability.

## Junior Developer

**StartUp Hub** — Justinberg, TX

*January 2017 - May 2018*

- Assisted in building various web applications using **Java** and **Docker**, gaining hands-on experience in containerization and deployment processes. - Participated in code reviews and team meetings, fostering a collaborative development environment.

---

## Skills

- **Vue.js**: Advanced
  - **Java**: Advanced
  - **Kubernetes**: Intermediate
  - **Django**: Intermediate
  - **FastAPI**: Intermediate
  - **Go**: Intermediate
  - **Rust**: Beginner
  - **Docker**: Beginner
- 

## Projects

- **Machine Learning Pipeline**

Designed and implemented a pipeline that processes large datasets efficiently, significantly reducing data handling times and improving accuracy for predictive models.

- **E-commerce Platform**

Spearheaded the full-stack development of a platform featuring user-friendly navigation and secure payment processing, which was pivotal in boosting sales.

- **Mobile App**

Developed an innovative mobile application that integrates social features and user engagement tools, garnering high ratings in app stores.

- **Data Analytics Dashboard**

Created a dashboard that visualizes key business metrics, enabling stakeholders to make informed decisions quickly.

---

## Education

### Bachelor of Science in Computer Science

**Justinberg University** — Justinberg, TX

*Graduated: May 2016*

- Relevant Coursework: Software Engineering, Data Structures, Web Development, Machine Learning

---

## Certifications

- Certified Kubernetes Administrator (CKA)
  - Django for Beginners Certification
  - FastAPI Fundamentals Course
- 

## Interests

In my free time, I enjoy contributing to open-source projects, exploring new programming languages, and participating in hackathons. I am also an avid reader of tech blogs and a member of local coding meetups, where I share knowledge and learn from peers.
