## Summary

Innovative and solutions-driven programmer with a passion for creating efficient and scalable software solutions. With hands-on experience in developing web applications and robust APIs, I am proficient in Node.js and TypeScript, while continuously improving my skills in Python and MongoDB. I thrive in collaborative environments and am dedicated to continuous learning and professional growth.

---

## Experience

### Software Developer

*Tech Innovations Inc., West Calebton*

*June 2021 - Present*

- Designed and implemented an **API Gateway** that streamlined communication between microservices, improving response times by **30%**.
- Developed a **Mobile App** for local businesses, increasing user engagement by **25%** through an intuitive user interface and seamless transaction processes.
- Collaborated with a team to create an **E-commerce Platform**, which resulted in a **40% increase** in sales for the client within the first quarter of launch.
- Integrated **Jenkins** for continuous integration and deployment, enhancing the deployment frequency by **50%**.

## **Junior Developer**

*Creative Solutions Co., West Calebtown*

*January 2019 - May 2021*

- Assisted in the development of a **Content Management System** that allowed non-technical users to easily manage web content, reducing content update times by **60%**.
  - Engaged in daily stand-ups and agile methodologies, contributing to cross-functional team discussions and project planning.
  - Gained foundational experience in **Python** and **MongoDB** through collaborative projects and self-directed learning.
- 

## **Skills**

- **Node.js:** Advanced
  - **TypeScript:** Intermediate
  - **DevOps:** Intermediate
  - **MongoDB:** Beginner
  - **Python:** Beginner
  - **Jenkins:** Beginner
- 

## **Projects**

- **API Gateway:** Created a central hub for microservices, optimizing data flow and reducing latency.
  - **Mobile App:** Developed a cross-platform mobile application that simplified customer interactions for local retailers.
  - **E-commerce Platform:** Collaborated on a scalable e-commerce solution that integrated payment gateways and inventory management.
  - **Content Management System:** Built a user-friendly interface for managing website content, enhancing user experience and site performance.
-

## Certifications

- AWS Certified Solutions Architect

*Issued: August 2023*

---

## Education

### Bachelor of Science in Computer Science

*West Calebtown University*

*Graduated: May 2018*

- Relevant Coursework: Web Development, Database Management, Software Engineering
  - Projects: Developed a full-stack application as part of a team project, earning recognition for innovative design and functionality.
