## Summary

Detail-oriented and passionate programmer with over 5 years of experience in developing scalable web applications and backend systems. Proven expertise in implementing microservices architectures and managing cloud environments. Strong background in both frontend and backend development, with a focus on delivering high-quality code and enhancing user experience. Seeking to leverage my skills in a challenging role that fosters innovation and growth.

---

## Experience

### Software Engineer

*Tech Innovations Inc.* — Pattersontown, CA

*June 2020 - Present*

- Developed a **Microservices Architecture** for an e-commerce platform, leading to a 30% improvement in system response time and scalability.
- Designed and implemented a **Content Management System** using **React** and **PostgreSQL**, streamlining content operations for marketing teams.
- Collaborated with cross-functional teams to integrate **Kubernetes** for container orchestration, enhancing deployment efficiency by 25%.

### Junior Developer

*Future Tech Solutions* — Pattersontown, CA

*May 2018 - May 2020*

- Contributed to the development of a **Payment Processing System** that handled over \$2 million in transactions monthly, ensuring compliance with security standards.

- Assisted in building a **Mobile App** for retail clients, which improved customer engagement by 40% through user-friendly interfaces and functionalities. - Collaborated in a Scrum team, participating in daily stand-ups and sprint planning, earning the **Scrum Master Certification** during this period.

## Skills

- **C++:** Expert
  - **React:** Expert
  - **Python:** Advanced
  - **Vue.js:** Advanced
  - **MongoDB:** Intermediate
  - **PostgreSQL:** Intermediate
  - **Kubernetes:** Intermediate
  - **DevOps:** Intermediate
  - **Jenkins:** Beginner
  - **Rust:** Beginner
- 

## Projects

- **Microservices Architecture:** Designed and implemented a scalable microservices architecture for a high-traffic e-commerce platform, enabling separate deployment and scaling of individual services.
  - **Content Management System:** Developed a user-friendly CMS that reduced the content publishing process from days to hours, improving team productivity significantly.
  - **Payment Processing System:** Engineered a robust payment processing solution that increased transaction speed by 50%, providing a seamless checkout experience for users.
  - **Mobile App:** Led the development of a mobile application that garnered 5,000 downloads within the first month of launch, enhancing the company's mobile presence.
  - **E-commerce Platform:** Contributed to building a full-stack e-commerce platform, which resulted in a 20% increase in sales through improved user experience and functionality.
-

## Certifications

- Microsoft Azure Developer
  - Scrum Master Certification
  - Google Cloud Professional
- 

## Education

### Bachelor of Science in Computer Science

*Patterson University* — Patterson, CA

*Graduated: May 2018*

- Graduated with honors, focusing on software engineering and cloud computing.
  - Completed a capstone project on developing a real-time data analytics platform using Python and MongoDB.
- 

## Additional Information

- Actively contributing to open-source projects on GitHub, focusing on improving community-driven applications.
- Passionate about continuous learning and staying up-to-date with emerging technologies and programming trends.
