---

- Team Leadership
  - Agile Methodology
  - Scrum
- 

## Languages

---

- **English:** C2
  - **French:** B2
  - **Polish:** C2
- 

## Experience

---

### Software Engineer

#### Tech Innovations

*Industry: FinTech | Size: Startup*

*June 2021 – Present*

- Developed a **Machine Learning Pipeline** that improved predictive analytics for financial forecasting, reducing processing time by 30%.
- Collaborated with cross-functional teams to design a **Data Analytics Dashboard**, enhancing data visualization for stakeholders.
- Led a team of 4 in implementing **Microservices Architecture**, resulting in a more scalable and maintainable codebase.

### Full Stack Developer

#### GreenTech Solutions

*Industry: Environmental | Size: Enterprise*

*June 2019 – May 2021*

- Engineered a multi-tier application using **Node.js** and **Next.js**, increasing application performance by 25%.
- Integrated **Redis** for caching solutions, which significantly improved response times for high-traffic endpoints.
- Participated in Agile development cycles, ensuring timely delivery of features and enhancements.

## Junior Developer

### Data Insights Corp

*Industry: Analytics | Size: Startup*

*June 2018 – May 2019*

- Assisted in the development of data processing scripts using **Python** and **PyTorch** for machine learning tasks. - Supported the team in creating user-friendly interfaces for data analytics tools, contributing to a 40% increase in user engagement. - Gained experience in Agile practices, participating in sprints and daily stand-ups.
