  - **DevOps:** Intermediate
  - **Redis:** Intermediate
  - **MongoDB:** Beginner
- 

## Projects

### • E-commerce Platform

Developed a full-stack e-commerce solution featuring a user-friendly interface, secure payment processing, and a comprehensive admin dashboard. Integrated machine learning algorithms to personalize user recommendations.

### • Data Analytics Dashboard

Created an interactive dashboard that visualizes key performance indicators

for clients, utilizing advanced data science techniques to derive actionable insights from complex datasets.

- **Web Application**

Designed and implemented a web application that automated business processes, leading to a significant reduction in manual errors and an increase in overall efficiency.
