## Summary

Highly skilled and passionate programmer with over 6 years of experience in software development and project management. Proven expertise in building scalable web applications and a strong foundation in DevOps practices. A proactive learner, I thrive in collaborative environments and excel in delivering high-quality solutions that meet business needs.

---

## Experience

### Senior Software Engineer

**TechSolutions Inc.** — North Dylan

*June 2021 - Present*

- Led a team of 5 developers in the design and implementation of a **Real-time Chat System** that improved user engagement by 30% and reduced latency by 25%.
- Enhanced application performance through the optimization of **Django** backend services, resulting in a 40% decrease in response times.
- Managed the migration of applications to **AWS**, ensuring high availability and scalability, which increased system reliability by 50%.

# Software Engineer

Innovatech — North Dylan

January 2018 - May 2021

- Developed a **Content Management System** using **Angular** and **Django**, streamlining content updates and reducing the time for deployment by 60%.
  - Implemented a **Payment Processing System** that integrated with various payment gateways, achieving a 99.9% transaction success rate.
  - Collaborated with cross-functional teams to adopt **DevOps** practices, implementing CI/CD pipelines that reduced deployment times from hours to minutes.
- 

## Skills

- **TypeScript** (Expert)
  - **Django** (Advanced)
  - **C++** (Advanced)
  - **Angular** (Advanced)
  - **Git** (Advanced)
  - **Redis** (Advanced)
  - **DevOps** (Advanced)
  - **AWS** (Intermediate)
- 

## Projects

- **Real-time Chat System:** Developed a scalable chat platform using WebSockets and **Django**, facilitating real-time communication for over 10,000 users.
- **Content Management System:** Built a flexible CMS for a major client, allowing non-technical users to easily manage site content, resulting in a 50% reduction in support requests.

- **Payment Processing System:** Designed and implemented a secure payment processing system that handled over \$1 million in transactions within the first three months of launch.
  - **Web Application:** Led a team in the development of a responsive web application, enhancing user experience and increasing traffic by 200%.
- 

## Education

### Bachelor of Science in Computer Science

North Dylan University — North Dylan

*Graduated: May 2017*

- Relevant Coursework: Software Engineering, Database Management, Web Development, Algorithms.
- 

## Certifications

- **AWS Certified Solutions Architect** — 2022
  - **Docker Certified Associate** — 2021
- 

## Interests

In my spare time, I enjoy contributing to open-source projects, exploring new programming languages, and staying updated with the latest technology trends. I also mentor aspiring developers through local coding bootcamps, helping them to navigate their career paths in tech.
