# Experience

---

## Software Developer

### Tech Innovations Inc.

*Industry: E-commerce | Size: Startup*

*June 2022 - Present*

- Developed a **Microservices Architecture** for an e-commerce platform that improved system scalability and reduced downtime by 30%.
- Collaborated with cross-functional teams to design and implement new features using **Angular**, enhancing user experience and increasing customer engagement.
- Participated in Agile ceremonies, contributing to sprint planning and retrospectives, ensuring project milestones were met.

## Junior Developer

### Creative Solutions Ltd.

*Industry: IT Services | Size: Enterprise*

*January 2021 - May 2022*

- Assisted in the development of a **Content Management System** using **C++**, focusing on backend optimization and data processing efficiency.
  - Engaged in team discussions to resolve conflicts and improve communication channels, fostering a collaborative work environment.
  - Gained exposure to **Jenkins** for CI/CD processes, automating deployment tasks, and reducing manual errors.
-
