-

Experience

Senior Software Engineer

Company: Tech Innovations Inc.

Industry: FinTech

Size: Enterprise

Duration: 4 years

- Developed a **Real-time Chat System** using React and Docker, enhancing customer support operations and improving response times by 30%.
- Led a team in implementing a **Data Analytics Dashboard** to visualize transaction data, resulting in a 25% increase in data-driven decision-making.

Software Developer

Company: NextGen Solutions

Industry: E-commerce

Size: Startup

Duration: 3 years

- Engineered backend services using Python and PostgreSQL for an e-commerce platform, which scaled to support over 10,000 active users daily.
- Collaborated with frontend developers to integrate user-friendly interfaces with robust backend APIs, enhancing user experience and engagement.

Junior Developer

Company: Cloud Services Ltd.

Industry: Cloud Computing

Size: Startup

Duration: 3 years

- Assisted in the deployment of cloud-based applications using Docker and Terraform, improving deployment efficiency by automating infrastructure setup.
 - Contributed to the development of internal tools that streamlined operational workflows, saving the team an estimated 15 hours per week.
