Experience

Software Developer

FinTech Startup

Size: 20-50 Employees

Dates: 2021 - Present

- Developed and maintained an **API Gateway** that improved the performance and scalability of microservices, reducing response time by 30%.
- Collaborated on a **Payment Processing System**, ensuring compliance with industry standards while enhancing security protocols.
- Participated in Agile ceremonies and contributed to Scrum processes, facilitating effective team communication and project delivery.

Junior Software Engineer

E-commerce Enterprise

Size: 200+ Employees

Dates: 2020 - 2021

- Assisted in the development of a **Mobile App** that enhanced user engagement and drove a 25% increase in sales within the first quarter of launch.
- Implemented a **Content Management System** that streamlined content updates, significantly reducing the time required for marketing teams to publish new material.
- Engaged in code reviews and mentoring junior developers, promoting best practices in software development.

Intern

Tech Startup

Size: 10-20 Employees

Dates: 2019 - 2020

- Contributed to the design and implementation of a **Machine Learning Pipeline**, optimizing data processing and model training workflows.
 - Gained hands-on experience with Terraform and Kubernetes to manage cloud resources and deploy applications efficiently.
