Summary

Dynamic and results-oriented programmer with a passion for developing innovative solutions. With a solid background in DevOps and database management, I excel in creating efficient and scalable applications. My experience spans multiple programming languages and technologies, with a strong focus on data science and machine learning. I am committed to continuous learning and improving my skills in emerging technologies.

Experience

Senior DevOps Engineer

Tech Solutions Inc., Lake Ashleyport

January 2020 - Present

- Spearheaded the migration of on-premises services to Google Cloud, reducing infrastructure costs by 30%.
- Implemented CI/CD pipelines using Jenkins and Docker, improving deployment times by 50%.
- Collaborated with cross-functional teams to optimize application performance, leading to a 25% increase in user satisfaction.

Software Developer

Innovatech Labs, Lake Ashleypoint

June 2017 - December 2019

- Developed and maintained a data analytics dashboard that streamlined reporting processes for clients, reducing data retrieval time by 40%.
 - Utilized Flask for backend development, ensuring robust API integrations for multiple front-end applications.
 - Contributed to the design and deployment of a mobile app that gained over 10,000 downloads within the first month of launch.
-

Skills

- **DevOps:** Expert
 - **MongoDB:** Expert
 - **Flask:** Advanced
 - **Rust:** Advanced
 - **JavaScript:** Intermediate
 - **Data Science:** Intermediate
 - **Vue.js:** Beginner
 - **Angular:** Beginner
 - **Machine Learning:** Beginner
-

Projects

Data Analytics Dashboard

- Developed an interactive dashboard using Flask and MongoDB, providing real-time insights and analytics for clients.
- Enabled clients to visualize their data trends, resulting in a 20% increase in data-driven decision-making.

Mobile App

- Designed a cross-platform mobile app that allows users to track their fitness goals, leveraging Rust for high-performance backend services.
 - Achieved a 4.8-star rating on app stores, with positive feedback highlighting the app's user-friendly interface.
-

Certifications

- **Google Cloud Professional**

Earned certification in 2021, demonstrating proficiency in cloud architecture and Google Cloud services.

Education

Bachelor of Science in Computer Science

University of Lake Ashleypoint

Graduated: May 2017

- Relevant Coursework: Data Structures, Algorithms, Database Management, Machine Learning
 - Completed a capstone project on predictive analytics, achieving a 95% accuracy rate using Python and various ML models.
-

I am eager to leverage my technical expertise and passion for programming to make a significant impact in my next role. Let's connect to explore potential opportunities!
