## Summary

Passionate and detail-oriented software developer with over 5 years of experience in building high-quality web applications. Proficient in a variety of programming languages and frameworks, with a strong foundation in both front-end and back-end development. A proven track record of collaborating with cross-functional teams to deliver innovative solutions that meet user needs and drive business growth.

---

## Skills

- **Angular:** Intermediate
  - **React:** Intermediate
  - **Flask:** Advanced
  - **Machine Learning:** Intermediate
  - **Git:** Intermediate
  - **Vue.js:** Advanced
  - **MySQL:** Advanced
  - **Kubernetes:** Intermediate
  - **MongoDB:** Intermediate
-

# Experience

## Software Developer

**Tech Innovations Inc.** | Wadebury, UK

*June 2020 - Present*

- Developed a **Real-time Chat System** using **Flask** and **Vue.js**, enhancing user engagement by 30% through improved communication features.
- Led the implementation of **Kubernetes** for container orchestration, resulting in a 40% reduction in deployment time and increased application reliability.
- Collaborated with data scientists to build a **Machine Learning Pipeline**, streamlining data processing and model deployment, which decreased processing time by 50%.

## Web Developer

**Creative Solutions Ltd.** | Wadebury, UK

*January 2018 - May 2020*

- Designed and implemented a **Mobile App** utilizing **React Native**, achieving over 10,000 downloads within the first month of launch.
- Enhanced existing applications by integrating **MySQL** databases, improving data retrieval speeds by 25%.
- Contributed to team efforts using **Git** for version control, ensuring smooth collaboration among developers and maintaining high code quality.

## Junior Developer

**Start-Up Hub** | Wadebury, UK

*June 2016 - December 2017*

- Assisted in the development of multiple web applications employing **Angular** and **Flask**, providing solid support for full-stack development tasks.
  - Participated in the migration of legacy systems to more modern solutions, which improved system performance by 20%.
-

## Projects

- **Mobile App:** Developed a feature-rich mobile application for a local retail business, integrating real-time inventory management and user-friendly interfaces.
  - **Real-time Chat System:** Engineered a scalable chat system that supports thousands of concurrent users, leveraging **Flask** for the back-end and **Vue.js** for the front-end.
  - **Machine Learning Pipeline:** Created a robust pipeline for data preprocessing, model training, and deployment, improving model accuracy by 15% through automated hyperparameter tuning.
- 

## Education

**Bachelor of Science in Computer Science**

**Wadebury University** | Wadebury, UK

*Graduated: May 2016*

---

## Certifications

- Docker Certified Associate
  - Google Cloud Professional
-
