**Location:** East Kevinport

---

## Summary

Passionate and dedicated software developer with over 5 years of experience in full-stack development, specializing in Python and Rust. Proven track record of delivering high-quality applications and solutions in fast-paced environments. Strong foundation in Agile methodologies, complemented by certifications in Scrum Master and AWS. Eager to leverage skills in a collaborative team to drive innovative projects and contribute to organizational success.

---

## Experience

### Software Developer

**Tech Innovations Inc., East Kevinport**

*June 2020 - Present*

- Developed and maintained a **real-time chat system** utilizing **Vue.js** and **Flask**, enhancing user engagement by 35%.
- Designed and implemented a **Machine Learning Pipeline** that improved data processing efficiency by 50%, allowing for faster insights.
- Collaborated in the creation of an **API Gateway** that standardized communication between microservices, reducing API response times by 20%.
- Led a team of 4 in transitioning the company's infrastructure to **AWS**, successfully reducing server costs by 30%.

## Junior Developer

### FutureTech Solutions, East Kevinport

January 2018 - May 2020

- Contributed to the development of a **Data Analytics Dashboard** using **Python** and **MongoDB**, which provided critical business insights resulting in a 15% increase in sales.
  - Assisted in the migration of legacy systems to modern architectures, focusing on **Git** for version control and collaboration.
  - Participated in daily stand-ups and sprint planning, fostering a strong Agile environment.
- 

## Skills

- **Python:** Advanced
  - **Rust:** Intermediate
  - **Vue.js:** Intermediate
  - **MongoDB:** Beginner
  - **Flask:** Beginner
  - **Git:** Intermediate
- 

## Projects

- **API Gateway:** Developed a robust API Gateway to manage microservices communication, resulting in improved scalability and maintenance.
  - **Machine Learning Pipeline:** Created a pipeline that automated data collection and processing, enhancing the accuracy of predictive models by 25%.
  - **Data Analytics Dashboard:** Designed an interactive dashboard that allowed stakeholders to visualize key performance indicators in real-time, facilitating better decision-making.
  - **Real-time Chat System:** Implemented a chat application that supports thousands of concurrent users, integrating WebSocket for real-time communication.
-

## Certifications

- **Scrum Master Certification** - Certified Agile project management techniques.
  - **Certified Kubernetes Administrator** - Demonstrated ability to manage Kubernetes clusters effectively.
  - **AWS Certified Solutions Architect** - Proficient in designing and deploying scalable systems on AWS.
- 

## Education

**Bachelor of Science in Computer Science**

**East Kevinport University**

*Graduated: May 2017*

- Relevant Coursework: Data Structures, Algorithms, Database Management, Web Development
