**Location:** Krystaltown

---

## Summary

Innovative and detail-oriented programmer with over 5 years of experience in full-stack development, specializing in Microservices Architecture and E-commerce solutions. Proven track record of delivering high-quality software on time and within budget. Strong collaborator with a passion for learning new technologies and enhancing user experience. Seeking opportunities to leverage my expertise in Node.js, PostgreSQL, and Rust to create scalable applications.

---

## Experience

### Senior Software Engineer

#### Tech Innovations Ltd.

*January 2020 - Present*

- Led a team of 5 developers in the creation of a **Microservices Architecture** for a high-traffic E-commerce platform, resulting in a **30% increase in scalability** and **20% reduction in load time**.
- Developed and optimized RESTful APIs using **Node.js** and **PostgreSQL**, improving data retrieval efficiency by **40%**.
- Implemented a CI/CD pipeline using Azure DevOps, reducing deployment times by **50%**.

### Software Developer

#### Creative Solutions Inc.

*June 2017 - December 2019*

- Collaborated on the development of a **Web Application** that streamlined client onboarding processes, leading to a **25% increase in customer satisfaction** scores.

- Designed and maintained a **Payment Processing System** integrating multiple payment gateways, achieving a **99.9% uptime** and enhancing transaction security.
  - Contributed to the team's transition to Agile methodologies as a certified **Scrum Master**, improving project delivery times.
- 

## Skills

- **Node.js:** Advanced
  - **PostgreSQL:** Advanced
  - **Rust:** Advanced
  - **JavaScript:** Advanced
  - **Python:** Beginner
- 

## Projects

### Microservices Architecture

- Designed and implemented a microservices-based application for an E-commerce platform, improving modularity and deployment speeds.

### E-commerce Platform

- Developed a full-stack E-commerce solution, including features like product search, user authentication, and payment integration, handling over **10,000 users** concurrently.

### Web Application

- Created a web application that manages customer data and interactions, which helped reduce response times by **50%**.

### Payment Processing System

- Engineered a payment processing system that facilitated secure transactions and integrated fraud detection mechanisms.
-

## Certifications

- Microsoft Azure Developer
  - Scrum Master Certification
  - Google Cloud Professional
- 

## Education

### Bachelor of Science in Computer Science

*University of Krystaltown*

*Graduated: May 2017*

- Graduated with Honors, GPA: 3.8/4.0
  - Completed coursework in Software Engineering, Database Systems, and Web Development.
- 

## Additional Information

- Passionate about open-source contributions; actively participate in various GitHub projects.
  - Enthusiastic about continuous learning; currently exploring **Python** and its applications in data science.
-
