Location: Ellisberg

Summary

Enthusiastic and results-driven programmer with over 5 years of experience in software development, specializing in data science and advanced web technologies. Proven ability to deliver high-quality software solutions and lead projects from inception to deployment. Passionate about leveraging machine learning and data-driven insights to create innovative applications.

Experience

Software Engineer

Tech Innovations Inc. - Ellisberg, CA

June 2021 - Present

- Developed a **Content Management System** that improved content delivery speed by 40%, using **JavaScript** and **Vue.js**.
- Led a team to create a **Real-time Chat System** utilizing **Kubernetes** and **Jenkins**, enhancing user engagement by 30%.
- Implemented **Microservices Architecture** for existing applications, resulting in a 25% reduction in deployment times.

Data Scientist

Data Solutions LLC - Ellisberg, CA

January 2019 - May 2021

- Spearheaded a project on **Machine Learning** that increased predictive accuracy by 15% for client datasets, showcasing advanced data analysis skills.
- Collaborated with cross-functional teams to develop an **E-commerce Platform** that saw a 50% increase in sales over six months post-launch.
- Conducted workshops on **Data Science** and its applications in business, fostering a data-driven culture within the organization.

Junior Developer

Web Dynamics - Ellisberg, CA

August 2017 - December 2018

- Assisted in the development of a **Mobile App** that reached 10,000 downloads within the first month of launch.
 - Improved application performance by optimizing code in **TypeScript** and **Rust**, achieving a 20% speed enhancement.
 - Gained hands-on experience with **Jenkins** for continuous integration and deployment processes.
-

Skills

- **JavaScript** (Advanced)
 - **Rust** (Advanced)
 - **Data Science** (Advanced)
 - **Machine Learning** (Intermediate)
 - **Kubernetes** (Intermediate)
 - **TypeScript** (Intermediate)
 - **Vue.js** (Intermediate)
 - **Jenkins** (Intermediate)
-

Projects

- **Content Management System:** Built a scalable CMS for a local news agency, resulting in a 40% increase in user engagement through improved content management.
 - **Real-time Chat System:** Developed a chat platform for internal communication, leading to a 30% increase in team collaboration.
 - **Mobile App:** Created a mobile application that serves as a marketplace for local artisans, achieving over 10,000 downloads in its first month.
 - **Microservices Architecture:** Transitioned a monolithic application to microservices, which decreased deployment times by 25%.
 - **E-commerce Platform:** Contributed to the development of a comprehensive e-commerce solution that boosted sales by 50% within six months.
-

Certifications

- **Docker Certified Associate - 2022**
-

Education

Bachelor of Science in Computer Science
University of Ellisberg - Ellisberg, CA
Graduated: May 2017

Personal Interests

- Passionate about open-source contributions and frequently participate in hackathons.
- Enjoys mentoring aspiring programmers and leading workshops in data science and web development.
