**Location:** Harttown

---

## Summary

Detail-oriented and passionate programmer with over 6 years of experience in software development and a strong focus on DevOps practices. Proven expertise in building robust applications using modern technologies and implementing scalable microservices architecture. Aiming to leverage my skills in a challenging position to deliver innovative solutions and drive efficiency.

---

## Experience

### Senior Software Engineer

**Tech Innovations Inc., Harttown**

*January 2020 - Present*

- Designed and implemented a **Microservices Architecture** for a payment processing system, resulting in a 30% increase in transaction speed and a 20% reduction in downtime.
- Developed an **API Gateway** that streamlined communication between microservices, improving system resilience and reducing latency by 25%.
- Led a team of 4 developers in creating a **Data Analytics Dashboard** using Flask and MongoDB, which enabled real-time data insights and improved decision-making processes for stakeholders.

# Software Developer

## Creative Solutions Ltd., Harttown

June 2017 - December 2019

- Contributed to the development of a **Machine Learning Pipeline** that automated data processing, decreasing manual workload by 40%.
  - Collaborated with cross-functional teams to deploy applications using **AWS**, enhancing the scalability and reliability of web services.
  - Implemented **Jenkins** for CI/CD pipelines, which improved deployment efficiency and reduced errors in the production environment by 35%.
- 

## Skills

- **Flask:** Expert
  - **MongoDB:** Advanced
  - **AWS:** Advanced
  - **Redis:** Intermediate
  - **Jenkins:** Intermediate
  - **DevOps:** Intermediate
- 

## Projects

- **Microservices Architecture:** Architected a system that supports multiple services with independent scaling and deployment, improving overall application performance.
  - **Data Analytics Dashboard:** Built a dashboard that visualizes key metrics, enabling the client to achieve a 15% increase in operational efficiency.
  - **API Gateway:** Developed a gateway that manages API traffic, leading to a 50% reduction in response times.
  - **Payment Processing System:** Engineered a secure and reliable payment module, handling over 10,000 transactions daily with minimal downtime.
  - **Machine Learning Pipeline:** Designed a pipeline that processes data for predictive analytics, resulting in a 25% improvement in forecasting accuracy.
-

## Certifications

- **AWS Certified Solutions Architect – Associate**

*Issued March 2021*

- **MongoDB Certified Developer**

*Issued August 2019*

---

## Education

### Bachelor of Science in Computer Science

#### Harttown University

*Graduated: May 2017*

- Relevant Coursework: Data Structures, Algorithms, Database Management, Web Development
  - Activities: Member of the Coding Club, participated in hackathons and coding competitions.
-
