Total Experience: 15 years

Education

B.Sc. in Computer Science

Georgia Institute of Technology

Rank: #15, *GPA:* 3.2

Summary

A highly skilled programmer with a total of **15 years of experience** in software development. Proficient in various programming languages and frameworks, including Rust, Go, React, and Vue.js. Demonstrated expertise in machine learning and cloud infrastructure. Strong **soft skills** in public speaking, strategic planning, and mentoring, enabling effective collaboration and leadership in diverse teams.

Skills

- **Rust:** Expert (14 years)
- **Go:** Advanced (5 years)
- **React:** Expert (13 years)
- **Vue.js:** Expert (10 years)
- **Machine Learning:** Expert (10 years)
- **Terraform:** Expert (8 years)

Soft Skills

- Public Speaking
 - Strategic Planning
 - Mentoring
-

Languages

- English (C1)
 - German (B1)
-

Certifications

- **Docker Certified Associate**

Score: 930, Expiration: 2026-05-10

Experience

Senior Software Engineer

Company: Tech Innovations Inc.

Industry: FinTech

Size: Enterprise

Duration: 2018 - Present

- Led the development of a **Machine Learning Pipeline** that improved predictive analytics for financial forecasting, resulting in a 25% increase in accuracy.
- Collaborated with cross-functional teams to design and implement a **Real-time Chat System**, enhancing customer support capabilities and reducing response time by 40%.
- Mentored junior developers, fostering a culture of continuous learning and growth within the team.

Software Developer

Company: Creative Solutions LLC

Industry: SaaS

Size: Startup

Duration: 2013 - 2018

- Developed a robust **Content Management System** using React and Vue.js, allowing for seamless content updates and management by non-technical users.
 - Implemented best practices for software development, including code reviews and agile methodologies, resulting in a 30% improvement in project delivery times.
 - Engaged in public speaking at industry conferences, sharing insights on modern web development practices.
-

Junior Programmer

Company: Future Tech Co.

Industry: Technology

Size: Startup

Duration: 2008 - 2013

- Assisted in the development of web applications using Rust and Go, contributing to the backend services that supported multiple client projects.
 - Participated in the design and implementation of user interfaces using React, improving user engagement through enhanced usability.
 - Supported machine learning initiatives by preparing data sets and conducting initial analysis for various projects.
-
