Location: East Amy

Hourly Rate: \$64/hr

Total Experience: 3 years

Summary

Detail-oriented programmer with 3 years of experience in software development. Proficient in Java and PostgreSQL, with a focus on creating efficient data-driven applications. Strong problem-solving skills and adaptability, complemented by excellent cross-functional communication abilities.

Education

B.Sc. in Computer Science

Technical University of Munich

Rank: #20, GPA: 3.72

Skills

- **Python:** Beginner (1 year)
- **C++:** Beginner (1 year)
- **Java:** Intermediate (3 years)
- **PostgreSQL:** Intermediate (3 years)
- **Redis:** Intermediate (3 years)
- **Data Science:** Intermediate (2 years)
- **Docker:** Intermediate (2 years)

- **Git:** Intermediate (3 years)
 - **Terraform:** Beginner (1 year)
-

Soft Skills

- Adaptability
 - Cross-functional Communication
 - Problem Solving
-

Languages

- **English:** C2
 - **German:** B2
-

Certifications

Microsoft Azure Developer

Score: 814, Expiration: 2026-11-06

Experience

Software Developer

E-commerce Platform | Startup

January 2022 - Present

- Developed a scalable web application for an e-commerce platform, enhancing user experience and increasing sales by 20%. - Integrated PostgreSQL for efficient data storage and retrieval, optimizing query performance by 30%. - Collaborated with cross-functional teams to implement an API Gateway, ensuring seamless communication between microservices.

Data Analyst

Mobile App Development | Enterprise

June 2021 - December 2021

- Contributed to the development of a mobile application by implementing data analytics features that improved user engagement by 25%.
- Utilized Docker for containerization, ensuring consistent development and production environments.
- Conducted data science analyses to identify user behavior patterns, influencing the app's design and functionality.

Junior Developer

FinTech Startup | Startup

January 2020 - May 2021

- Assisted in building a secure web application for financial transactions, focusing on reliability and user security.
 - Used Git for version control and collaboration with the development team, improving project workflow.
 - Developed features for an internal API that streamlined data access across various financial services.
-
