## Summary

Dynamic and detail-oriented programmer with over 5 years of experience in developing scalable web and mobile applications. Proficient in leveraging advanced knowledge of Java, Data Science, and PostgreSQL to deliver solutions that drive business growth and enhance user experience. Strong collaborative skills with a proven track record in agile environments. Passionate about continuous learning and exploring new technologies.

---

## Experience

### Senior Software Developer

*Tech Innovators Inc.*, Port Amandaton

*June 2020 - Present*

- Spearheaded the development of a web application that improved data processing efficiency by **30%**, utilizing **Java** and **PostgreSQL**.
- Collaborated with cross-functional teams to implement a microservices architecture, improving system scalability and deployment speed.
- Enhanced CI/CD pipelines using **Jenkins**, reducing deployment times by **25%**.
- Mentored junior developers in best practices for version control using **Git** and agile methodologies.

### Software Engineer

*NextGen Solutions*, Port Amandaton

*January 2018 - May 2020*

- Developed user-friendly mobile applications that increased user engagement by **40%** through intuitive design and functionality.
- Utilized **Angular** to create dynamic

single-page applications, significantly improving client satisfaction. - Conducted data analysis for decision-making processes, leading to the identification of key market trends. - Contributed to team efforts in integrating **MySQL** databases for secure data storage and retrieval.

---

## Skills

- **Git:** Expert
  - **Java:** Expert
  - **Data Science:** Expert
  - **PostgreSQL:** Advanced
  - **Angular:** Advanced
  - **Jenkins:** Intermediate
  - **MySQL:** Intermediate
  - **Microservices:** Beginner
- 

## Projects

### Web Application

- Developed a comprehensive web application for a local business that streamlined customer management processes. Integrated data analytics features that provided actionable insights, resulting in a **20%** increase in sales.

### Mobile App

- Designed and implemented a mobile application that allowed users to track their fitness goals. The app received over **10,000 downloads** within the first month of launch and was rated **4.8/5** on app stores.

---

## Certifications

- **Google Cloud Professional**

Acquired expertise in cloud architecture, enabling the design and deployment of robust applications using Google Cloud Platform.

---

## Education

### Bachelor of Science in Computer Science

*Port Amandaton University*, Port Amandaton

*Graduated: May 2017*

- Graduated with honors, focusing on software development and data analytics.

Completed a capstone project on machine learning algorithms for predictive analysis.

---

## Additional Information

- **Languages:** Fluent in English and Spanish
  - **Interests:** Open-source contributions, hiking, and exploring emerging technologies.
-
