

Curtis Carter

Email: john58@example.org

Location: Port Mirandaview

Summary

Dynamic and innovative programmer with over 5 years of experience in software development, specializing in machine learning and cloud solutions. Proven track record of delivering high-quality projects on time and exceeding client expectations. Strong advocate for clean code and innovative solutions, with a passion for leveraging technology to solve complex problems.

Experience

Senior Software Engineer

Tech Innovators Inc. – Port Mirandaview, CA

June 2021 - Present

- Developed and deployed a **Content Management System** that improved content retrieval efficiency by 30% using advanced **Flask** and **AWS** solutions.
- Spearheaded the design of an **API Gateway** that streamlined microservices communication, reducing latency by 25%.
- Collaborated with cross-functional teams to integrate machine learning models into existing applications, resulting in a 15% increase in user engagement.

Software Developer

NextGen Solutions – Port Mirandaview, CA

March 2018 - May 2021

- Contributed to the development of a scalable **Web Application** using **JavaScript** and **Docker**, enhancing user experience through responsive design.
 - Implemented CI/CD pipelines using **Jenkins**, which reduced deployment times by 40%.
 - Participated in code reviews and collaborated with junior developers to foster a culture of learning and knowledge sharing.
-

Skills

- **Machine Learning:** Advanced
 - **AWS:** Advanced
 - **C++:** Intermediate
 - **Docker:** Advanced
 - **JavaScript:** Expert
 - **React:** Beginner
 - **Flask:** Intermediate
 - **Jenkins:** Advanced
 - **Microservices:** Intermediate
 - **FastAPI:** Advanced
 - **Rust:** Advanced
-

Projects

- **Content Management System:** Developed a robust CMS using **Flask** and **AWS**, enabling faster content updates and improved user access controls.
- **API Gateway:** Designed a microservice architecture with an **API Gateway** that facilitated seamless integration between various services, enhancing system scalability.

- **Web Application:** Led the development of a responsive web application, utilizing **JavaScript** and **Docker**, which served over 10,000 active users monthly.
-

Certifications

- Certified Kubernetes Administrator
 - Docker Certified Associate
-

Education

Bachelor of Science in Computer Science

University of Port Mirandaview – Port Mirandaview, CA

Graduated: May 2017

Additional Information

- Passionate about open-source contributions and actively participate in various developer communities.
- Enthusiastic about continuous learning, currently exploring **Rust** and **React** frameworks to enhance my skill set.
