## Summary

Detail-oriented and passionate programmer with a strong foundation in full-stack development, specializing in JavaScript and FastAPI. Proven ability to deliver high-quality web applications and data-driven solutions. Seeking to leverage my technical skills and project experience in a challenging programming role.

---

## Skills

- **JavaScript** (Advanced): Proficient in building dynamic web applications using modern frameworks and libraries.
  - **Vue.js** (Beginner): Familiar with Vue.js for frontend development; currently enhancing skills through personal projects.
  - **MongoDB** (Intermediate): Experienced in designing and implementing database solutions for various applications.
  - **Git** (Advanced): Strong command of version control, enabling efficient collaboration and project management.
  - **PostgreSQL** (Intermediate): Adept at writing complex queries and managing relational databases to support application functionality.
  - **FastAPI** (Advanced): Skilled in developing RESTful APIs with FastAPI, focusing on performance and reliability.
-

# Experience

## Software Developer

**Innovative Solutions Inc.** - North Monica, CA

*June 2021 - Present*

- Developed and maintained a **Data Analytics Dashboard** that processes real-time data, improving decision-making efficiency by 25%.
- Collaborated with a team of 5 to design a **Content Management System**, enhancing content delivery speed by 40% through optimized database queries.
- Utilized **FastAPI** to create APIs that seamlessly integrated with frontend applications, reducing load times by 30%.
- Managed version control with **Git**, ensuring smooth project workflows and reducing deployment errors by 15%.

## Junior Developer

**Tech Innovations LLC** - North Monica, CA

*January 2020 - May 2021*

- Assisted in the development of a comprehensive **Web Application** that served over 10,000 users, focusing on user experience and functionality.
- Gained hands-on experience with **MongoDB** and **PostgreSQL**, implementing database solutions that increased data retrieval speeds by 20%.
- Participated in Agile development processes, contributing to sprint planning and retrospective meetings.

---

## Projects

- **Data Analytics Dashboard**

Designed and developed a dashboard for visualizing key business metrics, enhancing overall data accessibility for stakeholders.

- **Content Management System**

Led the backend development using FastAPI and PostgreSQL, facilitating a user-friendly interface for content creators.

- **Web Application**

Collaborated on a full-stack web application project that enabled users to manage their personal finances, improving user engagement through an intuitive design.

---

## Education

### Bachelor of Science in Computer Science

North Monica University - North Monica, CA

*Graduated: May 2019*

- Relevant Coursework: Database Management, Web Development, Software Engineering
- 

## Certifications

- **AWS Certified Solutions Architect**

Achieved certification in 2022, demonstrating expertise in designing distributed systems and cloud architecture.
