Location: West Donaldtown

---

## Summary

Driven and passionate programmer with over 5 years of experience in software development. Proficient in building robust applications using modern frameworks and technologies. Proven expertise in creating scalable solutions, with a strong focus on performance and user experience. Adept at collaborating with cross-functional teams and delivering projects on time.

---

## Skills

- **Angular** (Expert): Developed dynamic single-page applications, improving load times by 30%.
  - **MySQL** (Expert): Designed and optimized complex database schemas that increased query performance by 25%.
  - **AWS** (Intermediate): Deployed applications on AWS, leveraging services like EC2 and S3 for enhanced scalability.
  - **MongoDB** (Intermediate): Implemented NoSQL databases for high-volume applications, ensuring data integrity and availability.
  - **React** (Intermediate): Built user interfaces with React, enhancing user engagement through interactive components.
  - **FastAPI** (Intermediate): Developed RESTful APIs with FastAPI, achieving response times under 200ms for high-traffic applications.
  - **Go** (Intermediate): Contributed to backend services using Go, focusing on concurrent processing and microservices architecture.
-

# Experience

## Software Engineer

**Tech Innovations, Inc.** — West Donaldtown, WA

*January 2020 - Present*

- Led the development of an **E-commerce Platform** that processed over 10,000 transactions per day, resulting in a 40% increase in sales. - Architected a **Microservices Architecture** for internal applications, improving system reliability and reducing deployment time by 50%. - Implemented an **API Gateway** which streamlined service communication and reduced latency by 30%.

## Junior Developer

**Creative Solutions Ltd.** — West Donaldtown, WA

*June 2018 - December 2019*

- Collaborated in the development of a **Real-time Chat System** using WebSocket technology, enhancing user interaction and engagement. - Assisted in building a responsive **Web Application** that improved client satisfaction ratings by 20%.

---

## Projects

- **E-commerce Platform:** Spearheaded the development of a full-stack application utilizing Angular and MySQL that supports thousands of simultaneous users.
  - **Microservices Architecture:** Designed a microservices-based system that improved deployment frequency and reduced failure rates.
  - **API Gateway:** Developed a secure API gateway that managed traffic for multiple services, enhancing overall application performance.
  - **Real-time Chat System:** Created a chat application using FastAPI and MongoDB, providing users with instantaneous messaging capabilities.
  - **Web Application:** Developed a user-friendly web app that received recognition for its intuitive UI and design efficiency.
-

## Education

**Bachelor of Science in Computer Science**

**West Donaldtown University** — West Donaldtown, WA

*Graduated: May 2018*

---

## Certifications

- AWS Certified Solutions Architect - Associate
  - Certified Angular Developer
  - Database Management with MySQL - Coursera
- 

## Additional Information

- **Interests:** Open source contribution, tech blogging, and attending hackathons.
- **Volunteer Work:** Mentor for local coding bootcamps, helping aspiring developers learn key programming skills.
