Location: Deniseside
Hourly Rate: $69/hr
Total Experience: 7 years

Summary

Results-driven programmer with 7 years of experience in software development, specializing in microservices architecture and API gateway solutions. Adept at strategic planning, conflict resolution, and problem-solving, with a strong foundation in both technical and soft skills.

Education

B.Sc. in Computer Science
ETH Zurich
Rank: #9, GPA: 3.78

Skills

- **Spring Boot:** Advanced (4 yrs)
- **Java:** Advanced (4 yrs)
- **Python:** Intermediate (2 yrs)
- **Kubernetes:** Advanced (6 yrs)

Soft Skills

- Strategic Planning
- Conflict Resolution
- Problem Solving

Languages

- English (Native)
- German (B1)

Certifications

- **Scrum Master Certification**
  Score: 850, Exp: 2028-11-01
- **Certified Kubernetes Administrator**
  Score: 953, Exp: 2026-04-30
- **Microsoft Azure Developer**
  Score: 778, Exp: 2027-12-23

Experience

Software Engineer

Tech Innovations Inc.
Industry: FinTech | Size: Startup
2018 - Present
- Developed and maintained microservices architecture utilizing Spring Boot and Kubernetes, improving system scalability and performance. - Collaborated with cross-functional teams to design and implement an API gateway, enhancing security and streamlining data flow between services. - Led agile ceremonies and coached junior developers in Scrum practices to increase team productivity and project delivery timelines.

Backend Developer

Global Solutions Ltd.
Industry: E-commerce | Size: Enterprise
2016 - 2018
- Engineered backend services using Java and Python, driving the implementation of new features that increased customer engagement by 20%. - Played a key role in the migration of legacy systems to a microservices architecture, resulting in a 30% reduction in operational costs. - Actively participated in code reviews and team workshops to foster a culture of continuous learning and improvement.

Junior Developer

Innovative Tech Corp.
Industry: Software Development | Size: Startup
2015 - 2016
- Assisted in the development of web applications using Java and Spring Boot, gaining foundational skills in software engineering principles. - Engaged in team discussions to troubleshoot issues and propose solutions, contributing to a more efficient development process. - Supported the deployment and maintenance of applications in a Kubernetes environment, enhancing my understanding of container orchestration.
