- **Hourly Rate:** $89/hr

Summary

Experienced programmer with 15 years of experience in software development. Proficient in Agile Methodology and Scrum with strong skills in team leadership and cross-functional communication. Committed to mentoring junior developers and fostering a collaborative team environment.

Education

- **M.Sc. in Software Engineering**
  Massachusetts Institute of Technology (MIT)
- **Rank:** #1
- **GPA:** 3.94

Skills

- **Spring Boot:** Advanced (5 yrs)
- **Rust:** Expert (8 yrs)
- **Angular:** Expert (7 yrs)
- **PyTorch:** Expert (14 yrs)
- **MongoDB:** Advanced (4 yrs)

Soft Skills

- Agile Methodology
- Scrum
- Team Leadership
- Cross-functional Communication
- Mentoring

Languages

- English (Native)

Certifications

- **AWS Certified Solutions Architect**
- **Score:** 850
- **Expiration:** 2026-12-16

Experience

Senior Software Engineer

E-commerce Platform
Industry: E-commerce
Size: Enterprise
Duration: 5 years

- Led the development of a scalable e-commerce platform utilizing Spring Boot and Angular, improving transaction processing speed by 30%.
- Designed and implemented a microservices architecture that enhanced system reliability and simplified deployment processes.
- Collaborated with cross-functional teams to ensure seamless integration of API gateways.

Software Engineer

API Gateway
Industry: FinTech
Size: Startup
Duration: 4 years

- Developed and maintained a high-performance API gateway that streamlined communication between microservices, leading to a 25% reduction in latency.
- Utilized Rust for backend development to ensure high concurrency and performance under load.
- Participated in Agile ceremonies and contributed to sprint planning and retrospectives.

Data Scientist

Microservices Architecture
Industry: Technology
Size: Medium
Duration: 6 years

- Applied PyTorch for building machine learning models that analyzed user behavior, resulting in personalized recommendations and increased user engagement.
- Worked on database management with MongoDB to optimize data retrieval processes and support real-time analytics.
- Mentored junior developers in best practices for software development and architecture design.
