Location: North David

Summary

Dynamic and results-driven programmer with a passion for developing innovative applications and a strong foundation in both back-end and front-end technologies. Demonstrated ability to leverage expertise in **Flask** and **Machine Learning** to create scalable solutions. Proven track record of successfully managing projects from concept to completion, ensuring high-quality deliverables and client satisfaction.

Experience

Software Engineer

Tech Innovations Inc., North David

June 2021 - Present

- Developed a **Microservices Architecture** for a financial application, enhancing system scalability and reducing deployment times by 30%.
- Designed and implemented a **Real-time Chat System** using **Node.js** and **PostgreSQL**, which improved user engagement by 40%.
- Led a team in the creation of a **Payment Processing System** that streamlined transactions and reduced processing errors by 25%.
- Collaborated with data scientists to integrate **Machine Learning** models into existing applications, resulting in a 15% increase in prediction accuracy.

Junior Developer

NextGen Solutions, North David

January 2019 - May 2021

- Assisted in the development of a **Mobile App** utilizing **Flask** and **Docker**, which achieved 10,000 downloads within the first month of launch.
- Contributed to the migration of legacy systems to **AWS**, improving system reliability and performance.
- Gained hands-on experience with **MySQL** and **PostgreSQL**, optimizing database queries and reducing response times by 20%.

Skills

- **Flask** (Advanced)
- **MySQL** (Expert)
- **Machine Learning** (Advanced)
- **FastAPI** (Intermediate)
- **Node.js** (Intermediate)
- **Go** (Intermediate)
- **Docker** (Intermediate)
- **PostgreSQL** (Intermediate)
- **AWS** (Intermediate)
- **Data Science** (Intermediate)

Projects

- **Microservices Architecture**: Architected a robust, microservices-based system for a fintech startup, facilitating continuous deployment and scaling.
- **Real-time Chat System**: Developed a chat application for a client allowing users to communicate seamlessly, resulting in a 40% increase in user engagement metrics.
- **Payment Processing System**: Created a secure payment gateway that processed millions of dollars in transactions with minimal downtime.

- **Mobile App**: Led the development of a mobile application for task management that garnered excellent user reviews and high engagement rates.

Certifications

- **Scrum Master Certification** – Certified in Agile methodologies, enhancing team collaboration and project management efficiency.

Education

Bachelor of Science in Computer Science
North David University
Graduated: May 2018

- Completed coursework in Software Development, Data Structures, and Algorithms.
- Participated in various hackathons, winning first place in a university-wide coding competition.

Personal Interests

- Passionate about open-source contributions and regularly contribute to projects on GitHub.
- Enjoy hiking and exploring nature, which fuels creativity and problem-solving skills.
