Location: East Sylviachester

Summary

Dynamic and results-driven programmer with over 5 years of experience in developing scalable web applications and contributing to high-impact projects. Proficient in a diverse set of technologies, including advanced skills in Node.js and Angular. A strong advocate for best practices in DevOps and cloud computing, aiming to leverage technical expertise to drive innovative solutions and enhance operational efficiency.

Skills

- **JavaScript:** Intermediate
- **Node.js:** Advanced
- **Angular:** Advanced
- **Java:** Beginner
- **FastAPI:** Intermediate
- **DevOps:** Expert

Experience

Senior Full Stack Developer

Tech Innovations Inc., East Sylviachester
March 2020 - Present
- Led the development of a **Real-time Chat System** that improved user engagement

by 40% through enhanced communication features and real-time notifications. - Collaborated with cross-functional teams to design and implement an **API Gateway** that streamlined service interactions, reducing API response times by 30%. - Implemented CI/CD pipelines using Docker and Kubernetes, achieving a 25% reduction in deployment time and increasing overall deployment frequency.

Software Engineer

Creative Solutions Ltd., East Sylviachester
June 2018 - February 2020
- Developed and maintained multiple web applications using **Angular** and **Node.js**, contributing to a 50% increase in user satisfaction ratings. - Assisted in migrating legacy systems to modern architectures, enhancing system performance by 20% and reducing maintenance costs. - Participated in code reviews and mentoring sessions, fostering a culture of continuous learning and improvement within the team.

Junior Developer

NextGen Software, East Sylviachester
January 2016 - May 2018
- Contributed to the development of internal tools in **Java**, gaining foundational skills and understanding of object-oriented programming principles. - Assisted in the deployment of applications using **FastAPI**, leading to faster turnaround times for project deliveries. - Collaborated with QA teams to resolve bugs and improve application reliability.

Projects

Real-time Chat System

- Developed a scalable chat application that supports thousands of concurrent users, leveraging **Node.js** for backend services and **Angular** for the frontend.
- Implemented WebSocket for real-time messaging capabilities, which resulted in improved user interaction and retention.

API Gateway

- Architected an API Gateway that aggregates and routes requests to various microservices, optimizing performance and reducing latency by 30%.
- Enhanced security protocols through OAuth 2.0 authentication, safeguarding user data and improving compliance.

Certifications

- **Google Cloud Professional**
- **Docker Certified Associate**

Education

Bachelor of Science in Computer Science

East Sylviachester University

Graduated: May 2015

- Relevant coursework: Data Structures, Database Management, Software Engineering, Web Development.
