Location: Jesseberg

Hourly Rate: **$152/hr**

Total Experience: **13 years**

Summary

Experienced programmer with **13 years** in software development, specializing in TypeScript and Kubernetes. Proven expertise in leading teams and solving complex problems in fast-paced environments. Adaptable to various methodologies, with a strong focus on Agile practices.

Education

B.Sc. in Computer Science
Stanford University
Rank: #2 | **GPA:** 3.72

Skills

- **TypeScript:** Expert (8 years)
- **Kubernetes:** Expert (8 years)
- **Vue.js:** Advanced (5 years)
- **Node.js:** Intermediate (3 years)
- **Go:** Beginner (1 year)

Soft Skills

- Team Leadership
- Problem Solving
- Adaptability
- Agile Methodology

Languages

- English (C2)

Certifications

- **Docker Certified Associate**
  Score: 799 | Expiration: 2027-11-30
- **Google Cloud Professional**
  Score: 936 | Expiration: 2028-03-12

Experience

Senior Software Engineer

Tech Innovations (FinTech, Startup)
January 2020 - Present
- Developed a **Real-time Chat System** using TypeScript and Vue.js, enhancing user engagement by 30%.
- Designed and implemented an **API Gateway** to streamline interactions between microservices, improving response times by 25%.
- Led a team of 5 developers in transitioning to Kubernetes, resulting in a more robust deployment pipeline.

Software Engineer

NextGen Solutions (Healthcare, Enterprise)

June 2015 - December 2019

- Contributed to a **Microservices Architecture** for a patient management system, facilitating easy scalability and maintenance.
- Utilized Node.js for backend services, improving data processing speeds by 40%.
- Collaborated with cross-functional teams to implement Agile methodologies, enhancing project delivery timelines.

Junior Developer

Startup Labs (E-commerce, Startup)

July 2010 - May 2015

- Assisted in the development of e-commerce platforms using Vue.js and TypeScript, focusing on user experience.
- Participated in the migration of legacy systems to modern architectures, including initial exposure to Kubernetes.
- Supported team efforts in problem-solving sessions, contributing to improved development processes.
