Summary

Passionate and detail-oriented software developer with over 5 years of experience in designing and implementing scalable web applications. Proficient in modern JavaScript frameworks and backend technologies, I thrive in collaborative environments and am committed to delivering high-quality solutions. With a strong foundation in cloud services and container orchestration, I am eager to take on challenging projects that push the boundaries of technology.

Experience

Software Developer

Tech Innovations Inc., Port Jessica
January 2021 - Present
- Developed a **Content Management System** using **Vue.js** and **Node.js**, which improved content delivery speed by 30% and enhanced user engagement by 25%. - Collaborated with a team of 8 developers in an Agile environment, leading sprint planning and retrospectives as a certified Scrum Master. - Integrated **AWS** services to optimize application performance and reduce operational costs by 15%.

Full Stack Developer

E-commerce Solutions Ltd., Port Jessica
June 2018 - December 2020
- Led the development of an **E-commerce Platform** that supported over 10,000 concurrent users, utilizing **Go** and **AWS** to ensure high availability and scalability. -

Enhanced application security by implementing best practices and performing regular code audits, resulting in a 40% decrease in vulnerabilities. - Designed and maintained RESTful APIs with **Flask** and **FastAPI**, improving data retrieval speeds by 20%.

Junior Developer

ChatTech Corp., Port Jessica
March 2016 - May 2018
- Contributed to building a **Real-time Chat System** using **Node.js** and **Kubernetes**, which facilitated seamless communication for over 5,000 users daily. - Assisted in the migration of legacy applications to microservices architecture, leading to a 50% improvement in deployment time. - Participated in code reviews and pair programming, fostering team knowledge sharing and collaboration.

Skills

- **Vue.js**: Expert
- **Go**: Advanced
- **Rust**: Advanced
- **Node.js**: Advanced
- **AWS**: Advanced
- **Kubernetes**: Intermediate
- **FastAPI**: Intermediate
- **Flask**: Beginner

Projects

- **Content Management System**
  Developed a robust CMS that streamlined content creation and management for various clients. Implemented features like multi-user access, real-time editing, and analytics dashboard, leading to a 30% increase in client satisfaction.

- **E-commerce Platform**
  Spearheaded the creation of an e-commerce platform that integrated

payment gateways and inventory management systems. Achieved a 25% increase in sales within the first quarter of launch.

- **Real-time Chat System**
Built a scalable chat application that allowed users to communicate in real-time with support staff. The system handled thousands of simultaneous connections, significantly enhancing customer support efficiency.

Certifications

- **Scrum Master Certification**
- **AWS Certified Solutions Architect**

Education

Bachelor of Science in Computer Science
University of Port Jessica
Graduated: May 2015
- Relevant Coursework: Web Development, Cloud Computing, Data Structures, Software Engineering

Interests

In my spare time, I enjoy contributing to open-source projects, exploring the latest advancements in technology, and participating in hackathons. I also have a keen interest in cloud architecture and its impact on modern software development.
