- AWS Certified Solutions Architect
  Score: 875, Exp: 2026-05-04

Experience

Senior Software Engineer

FinTech Startup
Company Size: 50-100 Employees
Duration: 2018 - Present

- Developed and maintained a Microservices Architecture that streamlined operations and improved scalability.
- Designed and implemented an API Gateway that enhanced communication between microservices and third-party services, resulting in a 30% increase in system efficiency.
- Collaborated with cross-functional teams in an Agile environment to align project goals with business objectives.

Software Developer

E-commerce Enterprise

Company Size: 500+ Employees

Duration: 2015 - 2018

- Contributed to the development of a high-traffic e-commerce platform using React, enhancing user experience and increasing customer engagement.
- Participated in refactoring legacy code to modern frameworks, improving performance and maintainability.
- Engaged in strategic planning sessions to evaluate new features and technologies for integration into the existing product roadmap.

Junior Developer

Healthcare Startup

Company Size: 10-50 Employees

Duration: 2012 - 2015

- Assisted in the development of a patient management system with a focus on user interface design using React.
- Helped implement Agile methodologies, including Scrum practices, to improve team efficiency and project delivery timelines.
- Provided support in troubleshooting and resolving software issues, contributing to overall project success.
