Summary

Results-driven programmer with **10 years of experience** in software development, specializing in modern web technologies and machine learning. Demonstrated ability to lead cross-functional teams and communicate effectively across various stakeholders. Proficient in problem-solving and mentoring junior developers, ensuring project success and team growth.

Education

M.Sc. in Software Engineering

University of Oxford

- **Rank:** #5
- **GPA:** 3.99

Skills

- **Python:** Advanced (6 yrs)
- **Java:** Intermediate (2 yrs)
- **Angular:** Expert (8 yrs)
- **TypeScript:** Expert (8 yrs)
- **PostgreSQL:** Intermediate (3 yrs)
- **Machine Learning:** Expert (8 yrs)

- **Redis:** Expert (9 yrs)
- **Docker:** Intermediate (3 yrs)
- **Git:** Expert (10 yrs)
- **Azure:** Intermediate (2 yrs)

Soft Skills

- Cross-functional Communication
- Scrum
- Problem Solving
- Team Leadership
- Mentoring

Languages

- English (Native)
- Spanish (B2)
- Polish (Native)

Certifications

- **Microsoft Azure Developer**
  Score: 702, Exp: 2028-08-29

- **AWS Certified Solutions Architect**
  Score: 701, Exp: 2026-07-11

- **Google Cloud Professional**
  Score: 720, Exp: 2027-02-25

Experience

Senior Software Engineer

Tech Innovations Inc. (FinTech, Enterprise)

June 2018 - Present

- Led the development of a **Microservices Architecture** that enhanced system scalability and performance. - Designed and implemented a **Payment Processing System** integrating with multiple payment gateways, improving transaction efficiency by 30%. - Collaborated with cross-functional teams to develop a **Data Analytics Dashboard**, enabling real-time insights into user behavior.

Software Developer

Creative Solutions (Startup)

March 2014 - May 2018

- Developed a robust **Content Management System** using **Angular** and **TypeScript**, which improved content delivery speed by 40%. - Implemented an **API Gateway** for seamless interaction between services, enhancing system security and maintainability. - Contributed to the adoption of **Docker** for containerization, streamlining the deployment process across development and production environments.

Junior Developer

NextGen Technologies (Enterprise)

January 2013 - February 2014

- Assisted in building and maintaining a variety of applications, focusing on back-end development with **PostgreSQL**. - Participated in Agile methodologies, contributing to sprint planning and retrospectives to improve team performance. - Gained foundational experience in **Machine Learning**, assisting in data preprocessing and model training tasks.
