Location: North David

Summary

Dynamic and detail-oriented software engineer with over 5 years of experience in developing robust applications and system architectures. Proven expertise in cloud services, containerization, and continuous integration/deployment practices. Exceptional problem-solver with a strong focus on delivering high-quality solutions that enhance operational efficiency and user experience.

Experience

Senior Software Engineer

Tech Innovations Inc. - North David, NY

January 2021 - Present

- Led the development of a **Payment Processing System** that increased transaction throughput by 40%, significantly improving user experience during peak hours.
- Spearheaded the migration of legacy applications to **Kubernetes**, achieving 99.9% uptime and reducing deployment time by 50%.
- Implemented CI/CD pipelines using **Jenkins**, resulting in a 30% decrease in deployment errors and enhancing collaboration across teams.
- Mentored junior developers in **Java** and **Vue.js**, fostering a culture of continuous learning and skill development.

Software Developer

Creative Solutions Ltd. - North David, NY
June 2018 - December 2020

- Developed a **Content Management System** that streamlined content delivery and reduced loading times by 25%, resulting in improved user engagement metrics.
- Collaborated on an **E-commerce Platform** project, utilizing **PostgreSQL** for transactional data management, which supported a 20% increase in sales volume.
- Contributed to the design of a **Machine Learning Pipeline** that enhanced data processing speed by employing **Docker** containers for isolated environments.

Junior Developer

Startup Hub - North David, NY
May 2016 - May 2018

- Assisted in the creation of a **Real-time Chat System**, utilizing **Redis** for message caching, leading to a 15% increase in message delivery speed.
- Worked with a team to implement front-end features using **TypeScript** and **Vue.js**, improving application responsiveness and maintainability.

Skills

- **Jenkins:** Expert
- **Kubernetes:** Expert
- **PostgreSQL:** Expert
- **Docker:** Advanced
- **TypeScript:** Advanced
- **Redis:** Advanced
- **Java:** Intermediate
- **Vue.js:** Intermediate

Projects

- **Payment Processing System**: Architected a high-availability system that handles over 10,000 transactions per minute.
- **Content Management System**: Designed a user-friendly interface that supports over 500 concurrent users.
- **Machine Learning Pipeline**: Streamlined data ingestion and processing, reducing model training time by 30%.
- **E-commerce Platform**: Developed features that led to a 25% increase in customer retention rates.
- **Real-time Chat System**: Built a scalable chat application that supports thousands of simultaneous users with minimal latency.

Certifications

- **AWS Certified Solutions Architect**
- **Google Cloud Professional**
- **Certified Kubernetes Administrator**

Education

Bachelor of Science in Computer Science
North David University - North David, NY
Graduated: May 2016

- Relevant coursework: Cloud Computing, Data Structures, Software Engineering, Database Management Systems.
- Participated in various hackathons, winning 2nd place in a regional coding competition.
