Summary

Dynamic programmer with **8 years of experience** in software development, specializing in building robust applications and microservices. Adept in conflict resolution and experienced in Agile methodologies, including Scrum. Proven ability to deliver high-quality projects on time while collaborating effectively with cross-functional teams.

Education

PhD in Artificial Intelligence
Stanford University
Rank: #2, GPA: 3.56

Skills

- **Spring Boot:** Expert (8 years)
- **Vue.js:** Advanced (4 years)
- **PostgreSQL:** Beginner (1 year)
- **Redis:** Expert (8 years)
- **Jenkins:** Intermediate (3 years)

Soft Skills

- Conflict Resolution
- Scrum
- Agile Methodology

Languages

- English (C2)
- Polish (C2)

Certifications

- **Microsoft Azure Developer**
  Score: 723, Exp: 2027-01-07
- **Certified Kubernetes Administrator**
  Score: 766, Exp: 2026-10-03

Experience

Software Engineer

E-commerce Platform
Industry: Retail | Size: Enterprise
Duration: 2019 - Present
- Developed and maintained a scalable e-commerce platform using **Spring Boot** and **Vue.js**, enhancing user experience and reducing load times by 30%. - Implemented a **Microservices Architecture** that improved system reliability and facilitated the integration of new features. - Collaborated with cross-functional teams in an Agile environment to deliver high-impact projects, including a machine learning pipeline for product recommendations.

Backend Developer

Mobile App Development
Industry: Technology | Size: Startup
Duration: 2016 - 2019
- Led the backend development of a mobile application utilizing **Redis** for caching and **PostgreSQL** for database management, resulting in a 40% increase in app performance. - Engaged in continuous integration and deployment using **Jenkins**, streamlining the development process and reducing deployment times by 50%. - Participated in regular Scrum meetings, contributing to sprint planning and retrospective sessions to enhance team productivity.

Junior Developer

FinTech Solutions
Industry: Finance | Size: Startup
Duration: 2015 - 2016
- Assisted in the development of financial applications with a focus on performance and security. - Gained experience with **Spring Boot** and collaborated closely with senior developers to implement features in a fast-paced environment. - Contributed to the development of a microservices architecture for transaction processing systems.
