Location: East Misty

Summary

Passionate and results-driven programmer with over 5 years of experience specializing in machine learning and backend development. Proven track record in delivering high-quality software solutions and optimizing existing systems. Adept at collaborating with cross-functional teams to drive project success, with a strong focus on performance and scalability.

Experience

Senior Software Engineer

Tech Innovations Inc. - East Misty

June 2020 - Present

- Spearheaded the development of a **Real-time Chat System** that supports over 10,000 concurrent users, utilizing Node.js and Redis for optimized performance. - Designed and implemented machine learning models that improved user engagement metrics by 30% through personalized content recommendations. - Collaborated with a team of 5 developers to transition legacy systems to microservices architecture, enhancing system reliability and maintainability.

Software Developer

Creative Solutions Ltd. - East Misty

January 2018 - May 2020

- Developed a robust **Content Management System** using Angular and MongoDB, leading to a reduction in content publishing time by 40%. - Integrated Kubernetes for

container orchestration, streamlining deployment processes and reducing downtime by 25%. - Conducted code reviews and mentored junior developers, fostering a culture of continuous learning and improvement.

Junior Developer

Startup Hub - East Misty
June 2016 - December 2017
- Assisted in the creation of a **Web Application** that facilitated user interaction and data management, leading to a user base growth of 50% within the first year. - Gained foundational knowledge in Java and C++, contributing to various small projects and internal tools.

Skills

- **Machine Learning:** Expert
- **C++:** Expert
- **Node.js:** Advanced
- **Redis:** Advanced
- **MongoDB:** Intermediate
- **Kubernetes:** Intermediate
- **Microservices:** Beginner
- **Java:** Beginner
- **Angular:** Beginner

Projects

- **Real-time Chat System**: Developed a scalable chat application that utilizes WebSockets and Redis for real-time messaging, resulting in a seamless user experience.
- **Content Management System**: Created a dynamic CMS that allows users to create and manage content efficiently, integrating advanced search capabilities powered by MongoDB.
- **Web Application**: Participated in the development of a full-stack web application, focusing on backend services with Node.js and implementing RESTful APIs.

Certifications

- **Docker Certified Associate**
- **Certified Kubernetes Administrator**
- **Microsoft Azure Developer**

Education

Bachelor of Science in Computer Science
University of East Misty - East Misty
Graduated: May 2016

Additional Information

- Actively participating in local tech meetups and hackathons to stay updated with the latest trends in technology.
- Passionate about contributing to open-source projects and sharing knowledge through blog posts and workshops.
