- **Certified Kubernetes Administrator**
  Score: 732 | Expiry: 2027-01-24
- **Scrum Master Certification**
  Score: 802 | Expiry: 2026-02-09
- **Microsoft Azure Developer**
  Score: 809 | Expiry: 2026-05-17

Experience

Software Engineer

E-commerce Platform (Startup)
2019 - Present
- Developed and maintained a high-traffic e-commerce web application using Vue.js and Next.js, enhancing user experience and increasing conversion rates by 25%. - Implemented microservices architecture to improve scalability and performance, resulting in a 30% reduction in downtime. - Collaborated with cross-functional teams to design and integrate an API gateway, facilitating seamless communication between services.

Machine Learning Engineer

FinTech Company (Enterprise)
2016 - 2019

- Designed and deployed machine learning models for fraud detection, achieving a 40% improvement in accuracy over previous systems. - Worked on integrating machine learning capabilities into existing applications, providing real-time analytics and insights to stakeholders. - Participated in Agile development processes, contributing to sprint planning and retrospectives to optimize team productivity.

Frontend Developer

Web Application Development Firm (Startup)
2015 - 2016

- Created responsive web applications using Vue.js, focusing on delivering high-quality user interfaces and user experiences. - Collaborated with designers and backend developers to implement new features and optimize performance, resulting in faster load times and improved user satisfaction. - Engaged in client presentations to demonstrate product capabilities and gather feedback for continuous improvement.
