Michael Jackson

Email: laurajones@example.com
Location: North Keithside

Summary

Enthusiastic and detail-oriented software programmer with over 5 years of professional experience in designing and implementing robust applications. Proficient in microservices architecture and container orchestration, I am skilled in deploying applications using Kubernetes and Jenkins. My passion lies in developing scalable backend solutions while ensuring seamless user experiences. I strive to leverage my diverse skill set to contribute to innovative projects that drive business success.

Experience

Senior Software Engineer

Tech Innovations Inc. - North Keithside
June 2020 - Present

- Led the development of a **Real-time Chat System** utilizing **Node.js** and **Django**, improving user engagement by 40%.
- Designed and implemented a **Microservices Architecture** that reduced application downtime by 30% through automated CI/CD pipelines using **Jenkins** and **Kubernetes**.
- Collaborated with cross-functional teams to enhance the **Data Analytics Dashboard**, resulting in a 25% increase in data processing speed.

Software Developer

Creative Solutions Ltd. - North Keithside
January 2018 - May 2020

- Developed and maintained applications using **Angular** and **TypeScript**, ensuring high performance and responsiveness to requests from the back-end.
- Contributed to the migration of legacy applications to containerized solutions with **Docker**, leading to a 20% reduction in operational costs.
- Participated in code reviews and mentoring sessions, fostering a collaborative environment and improving team productivity.

Skills

- **Microservices:** Expert
- **Kubernetes:** Advanced
- **Jenkins:** Advanced
- **Django:** Advanced
- **MySQL:** Advanced
- **Node.js:** Intermediate
- **Angular:** Intermediate
- **TypeScript:** Intermediate
- **Docker:** Intermediate
- **C++:** Intermediate
- **Java:** Beginner
- **Git:** Beginner

Projects

Real-time Chat System

- Developed a scalable chat application that supports thousands of concurrent users, utilizing **Node.js** and **Django** for backend services.

Microservices Architecture

- Architected a microservices-based platform that improved system reliability and deployment speed, enabling rapid feature releases and reduced development cycles.

Data Analytics Dashboard

- Created an interactive dashboard that visualizes large datasets, providing actionable insights that helped stakeholders make informed decisions.

Education

Bachelor of Science in Computer Science
University of North Keithside - North Keithside
Graduated: May 2017

- Relevant Coursework: Software Engineering, Database Management, Cloud Computing, Data Structures and Algorithms

---

Certifications

- **Certified Kubernetes Administrator (CKA)** - Cloud Native Computing Foundation, 2021
- **Docker Certified Associate (DCA)** - Docker, Inc., 2020
- **AWS Certified Solutions Architect - Associate** - Amazon Web Services, 2019

Personal Interests

- **Open Source Contributions:** Actively contribute to various open-source projects, particularly those focused on backend development and cloud computing.
- **Tech Blogging:** Writing articles on emerging technologies and best practices in software development.

- **Gaming:** Enthusiastic gamer, exploring game development with Unity in my spare time.
