Summary

Dynamic and results-driven software developer with over 5 years of experience in building scalable applications. Proven expertise in microservices architecture, front-end frameworks, and C++ development. Adept at collaborating with cross-functional teams to drive project success and deliver high-quality software solutions. Passionate about leveraging technology to enhance user experience and optimize business processes.

Experience

Senior Software Developer

Tech Innovations Ltd. - West James, CA

June 2021 - Present

- Spearheaded the development of a **microservices-based architecture** for an E-commerce platform, resulting in a **30% increase in system performance** and a **20% reduction in downtime**.
- Collaborated with UX/UI designers to enhance user interface using **Vue.js**, improving user engagement by **25%**.
- Implemented CI/CD pipelines as part of the **DevOps** practices, reducing deployment time by **40%**.

Software Engineer

NextGen Solutions - West James, CA

January 2018 - May 2021

- Developed a **Data Analytics Dashboard** that processed and visualized large datasets, leading to **enhanced decision-making capabilities** for clients.
- Utilized **Angular** for front-end development, which improved application responsiveness and user satisfaction scores by **15%**.
- Participated in Agile methodologies as a **Scrum Master**, facilitating sprint planning and retrospectives, leading to improved team productivity.

Junior Developer

Innovatech Corp. - West James, CA

June 2016 - December 2017

- Assisted in the development of a **Content Management System** using **Python**, which decreased content publishing time by **50%**.
- Gained foundational skills in **Redis**, contributing to data caching strategies that improved application load times.

Skills

- **C++:** Advanced
- **Vue.js:** Advanced
- **Angular:** Advanced
- **Microservices:** Advanced
- **DevOps:** Intermediate
- **Python:** Beginner
- **Redis:** Beginner

Projects

- **E-commerce Platform**
  Led the architecture and development of a scalable e-commerce platform, integrating payment gateways and improving user experience through advanced front-end frameworks.

- **Data Analytics Dashboard**
  Designed and implemented a dashboard for real-time data analytics, leveraging modern web technologies to enhance client reporting capabilities.

- **Content Management System**
  Developed a robust CMS that streamlined content creation and management, allowing non-technical users to easily publish and update content.

Certifications

- **Google Cloud Professional**
  Issued: March 2022
  Validated expertise in cloud architecture and services.

- **Scrum Master Certification**
  Issued: September 2020
  Demonstrated ability to lead Agile teams effectively.

Education

Bachelor of Science in Computer Science
University of West James - West James, CA
Graduated: May 2016

Personal Interests

In addition to my professional pursuits, I enjoy contributing to open-source projects and staying current with the latest technology trends. I am an avid hiker and believe in maintaining a healthy work-life balance.
