# James Johnson

**Email:** becky35@example.com

**Phone:** 001-222-307-9626x254

**Location:** West Davidchester

**Hourly Rate:** $60/hr

**Total Experience:** 4 years

## Summary

Dedicated programmer with 4 years of experience in Data Science and software development. Proficient in strategic planning, cross-functional communication, problem-solving, and mentoring. Aiming to leverage skills in a challenging programming role.

## Education

**M.Sc. in Software Engineering**

ETH Zurich

*Rank: #9, GPA: 3.76*

## Skills

- **Data Science:** Advanced (4 years)
- **Next.js:** Intermediate (2 years)
- **TypeScript:** Intermediate (2 years)
- **Rust:** Beginner (1 year)
- **Redis:** Beginner (1 year)
- **Machine Learning:** Beginner (1 year)

## Soft Skills

- Strategic Planning
- Cross-functional Communication
- Problem Solving
- Mentoring

## Languages

- English (Native)
- French (B2)
- Polish (Native)

## Certifications

- **Certified Kubernetes Administrator**
  Score: 834, Exp: 2028-01-12

- **Docker Certified Associate**
  Score: 859, Exp: 2026-03-12

- **Scrum Master Certification**
  Score: 882, Exp: 2027-08-03

## Experience

### Software Engineer

**FinTech Startup**
*Size: 50-100 employees*
*Duration: 2 years*

- Developed a **Payment Processing System** that improved transaction speed by 30%.

- Collaborated with cross-functional teams to define API specifications, enhancing integration with third-party services.

## Full Stack Developer

### E-commerce Enterprise

*Size: 500+ employees*
*Duration: 1.5 years*

- Designed and implemented an **API Gateway** to streamline communication between microservices, reducing downtime by 20%.
- Integrated machine learning algorithms to personalize user experiences, resulting in a 15% increase in customer engagement.

## Data Scientist

### Healthcare Startup

*Size: 10-50 employees*
*Duration: 6 months*

- Conducted data analysis to derive insights for product development, contributing to a successful launch of a health monitoring application.
- Collaborated with software developers to integrate data science models into production environments.
