Summary

Passionate and detail-oriented software developer with over 5 years of experience in building dynamic web applications and robust back-end systems. Highly skilled in Python and Go, with proven expertise in developing scalable solutions using FastAPI and Django. Adept at collaborating within agile teams and delivering projects on time while maintaining a strong focus on quality and performance. Seeking to leverage my technical skills and leadership experience as a Senior Software Engineer.

Experience

Software Engineer

Tech Innovators Inc. — North Jesuschester, UK
June 2020 - Present

- Developed a **Data Analytics Dashboard** that increased data retrieval efficiency by 40% using **FastAPI** and **PostgreSQL**.
- Led a team of 5 developers to create a highly responsive **E-commerce Platform**, resulting in a 25% increase in sales over the first quarter after launch.
- Implemented CI/CD pipelines using **Git** and AWS services, reducing deployment time by 30%.
- Collaborated with cross-functional teams to enhance the performance of existing applications, achieving a 20% reduction in load times.

Junior Software Developer

Creative Solutions Ltd. — North Jesuschester, UK
January 2018 - May 2020

- Contributed to the development of a **Content Management System** using **Django** and **MySQL**, allowing clients to manage their content seamlessly.
- Assisted in the creation of a **Machine Learning Pipeline** that improved predictive accuracy by 15% for client data analytics projects.
- Engaged in regular code reviews and pair programming sessions, fostering a culture of knowledge sharing and best practices among team members.
