Summary

A dedicated programmer with 13 years of experience in software development, specializing in Rust and PostgreSQL. Proficient in Agile Methodology, mentoring teams, strategic planning, and conflict resolution. Committed to delivering high-quality software solutions and fostering a collaborative work environment.

Education

M.Sc. in Software Engineering
Massachusetts Institute of Technology (MIT)
Rank: #1, GPA: 3.91

Skills

- **Rust:** Expert (10 years)
- **PostgreSQL:** Advanced (5 years)
- **Jenkins:** Intermediate (2 years)
- **Git:** Expert (11 years)

Soft Skills

- Agile Methodology
- Mentoring
- Strategic Planning
- Conflict Resolution

Languages

- **English:** C2
- **French:** B1

Certifications

- **Docker Certified Associate** (Score: 794, Exp: 2026-01-15)
- **Google Cloud Professional** (Score: 993, Exp: 2028-01-25)
- **Microsoft Azure Developer** (Score: 711, Exp: 2027-10-17)

Experience

Senior Software Engineer

Tech Innovations, Inc.
Industry: FinTech | Size: Enterprise
June 2018 - Present

- Led the development of a microservices architecture for a financial application, improving system scalability and performance.
- Collaborated with cross-functional teams to implement Agile methodologies, enhancing team productivity and project delivery timelines.
- Mentored junior developers, providing guidance on best practices in Rust and PostgreSQL.

Software Developer

Creative Solutions, LLC
Industry: E-commerce | Size: Startup
January 2015 - May 2018

- Designed and implemented a web application that streamlined the customer checkout process, resulting in a 30% increase in conversion rates.
- Utilized Jenkins for continuous integration and deployment, improving code quality and reducing release times.
- Actively participated in code reviews, fostering a culture of collaboration and knowledge sharing within the team.

Junior Developer

Web Dynamics, Inc.
Industry: Technology | Size: Medium
January 2010 - December 2014

- Contributed to various projects involving web application development using Rust and PostgreSQL.
- Assisted in the transition to version control systems using Git, promoting best practices in source code management.
- Engaged in team meetings and contributed ideas for process improvements, enhancing overall team efficiency.
