Summary

Enthusiastic and detail-oriented software developer with over 5 years of experience in designing, developing, and maintaining web and mobile applications. Proficient in Java and Rust, with a strong foundation in Python and an interest in machine learning. Proven ability to deliver high-quality solutions on time, optimizing performance and scalability. Passionate about adopting innovative technologies and enhancing user experiences.

Experience

Senior Software Developer
Tech Innovations Inc., Harveystad
January 2021 - Present
- Led the development of a **web application** that increased client engagement by 30%, utilizing **Java** and **Vue.js** to create a responsive and intuitive user interface. - Collaborated with cross-functional teams to implement **DevOps** practices, reducing deployment times by 50%. - Conducted training sessions for junior developers on **Rust** and **Python**, enhancing team productivity and skillsets.

Software Engineer
Creative Solutions Ltd., Harveystad
June 2018 - December 2020
- Developed a **mobile app** for e-commerce, resulting in a 25% increase in sales within the first quarter of launch, using **React Native** and **MySQL** for backend integration. - Implemented machine learning algorithms to analyze user behavior, improving recommendation accuracy by 15%. - Enhanced application performance through optimization techniques, achieving a 40% reduction in load times.

Skills

- **Java:** Expert
- **Rust:** Advanced
- **Python:** Advanced
- **C++:** Intermediate
- **MySQL:** Intermediate
- **Machine Learning:** Intermediate
- **Vue.js:** Advanced
- **FastAPI:** Beginner
- **React:** Beginner
- **TypeScript:** Beginner
- **Redis:** Beginner
- **DevOps:** Intermediate

Projects

Mobile App - E-Shopper

- Developed a cross-platform mobile application using **React Native**, enabling users to browse and purchase products seamlessly.
- Integrated payment gateways and user authentication, resulting in a 4.8-star rating on app stores.

Web Application - Task Manager

- Designed and implemented a task management web app using **Java** and **Vue.js**, which streamlined workflow for over 100 users in a corporate setting.
- Introduced features like real-time notifications and task prioritization, leading to a 20% increase in team productivity.

Certifications

- **AWS Certified Solutions Architect** - Amazon Web Services, 2022

Education

Bachelor of Science in Computer Science

Harveystad University

Graduated: May 2018

- Specialized in Software Development and Data Structures.
- Completed a capstone project on distributed systems, earning accolades from faculty.

Personal Interests

- Actively participate in local coding bootcamps to mentor aspiring developers.
- Enjoy exploring new frameworks and contributing to open-source projects in my spare time.
