Gregory Mosley

Email: brandy69@example.org
Location: South Jennifer

Summary

Dynamic and results-oriented software developer with over 6 years of experience in designing, developing, and implementing robust applications and solutions. Proven track record of utilizing cutting-edge technologies to enhance productivity and streamline processes. Passionate about delivering high-quality software solutions, with a strong expertise in C++ and TypeScript. Seeking to leverage my programming skills and project management experience in a challenging role at a forward-thinking organization.

Experience

Senior Software Developer

Tech Innovations Inc. — South Jennifer
June 2020 - Present
- Led a team of 5 developers to design and implement an **API Gateway** that improved service response times by 30%. - Developed a comprehensive **E-commerce Platform** using **Angular** and **TypeScript**, resulting in a 25% increase in sales within the first quarter post-launch. - Implemented CI/CD pipelines using **Jenkins**, reducing deployment times from hours to minutes and increasing deployment frequency by 40%.

Software Engineer

Creative Solutions LLC — South Jennifer
January 2018 - May 2020

- Collaborated on a **Data Analytics Dashboard** project that aggregated data from multiple sources, providing real-time insights which led to a 15% increase in operational efficiency. - Enhanced backend services using **FastAPI**, resulting in a 20% reduction in API latency. - Contributed to team efforts in adopting **Docker** for containerization, achieving smoother development and deployment processes.

Junior Developer

NextGen Technologies — South Jennifer
June 2016 - December 2017
- Assisted in developing various internal tools using **C++**, focusing on optimizing existing code which improved software performance by 10%. - Gained foundational experience in web technologies and contributed to front-end projects using **Angular**. - Participated in code reviews and provided constructive feedback to peers, enhancing overall team productivity.

Skills

- **C++:** Expert
- **TypeScript:** Advanced
- **FastAPI:** Intermediate
- **Angular:** Intermediate
- **Jenkins:** Intermediate
- **Docker:** Certified Associate

Projects

API Gateway

- Developed a scalable API Gateway that streamlined microservices communication, resulting in a 30% increase in system throughput.

E-commerce Platform

- Spearheaded the design and implementation of a full-featured online store, integrating payment gateways and enhancing user experience, leading to a 25% increase in monthly sales.

Data Analytics Dashboard

- Engineered a dashboard tool that visualized complex datasets, aiding decision-makers in identifying trends, which improved strategic planning by 15%.

Education

Bachelor of Science in Computer Science
University of South Jennifer — South Jennifer
Graduated: May 2016

Certifications

- **Docker Certified Associate**
  Issued: July 2021
