Experience

Senior Software Engineer

Company: Tech Innovations Inc.
Industry: FinTech

Size: Enterprise
Duration: 2018 - Present

- Led the development of a **Microservices Architecture** for a scalable financial transaction processing system, improving transaction speed by 30%.
- Collaborated with cross-functional teams to implement a **Machine Learning Pipeline** for fraud detection, reducing false positives by 25%.
- Utilized **Spring Boot** and **Docker** for backend services, ensuring seamless deployment and integration.

Software Developer

Company: Creative Solutions Ltd.
Industry: E-commerce
Size: Startup
Duration: 2014 - 2018

- Developed a robust **Content Management System** using **Vue.js** and **Next.js** that enhanced user experience and increased customer engagement by 40%.
- Automated deployment processes using **Docker**, cutting deployment time in half and allowing for more frequent updates.
- Contributed to team efforts in adopting Agile methodologies, improving project delivery timelines.

Junior Developer

Company: Data Systems Corp.
Industry: Technology Consulting
Size: Enterprise
Duration: 2009 - 2014

- Assisted in building and maintaining various applications in **Java** and **C++**, focusing on performance optimization and code quality.
- Participated in daily Scrum meetings, providing updates on project status, challenges, and solutions.
- Engaged in public speaking opportunities to present project outcomes to stakeholders.
