Location: West Lindaville

Summary

Innovative and results-driven programmer with over 8 years of experience in software development and a passion for creating scalable, high-performance applications. Proven expertise in a variety of programming languages and frameworks, particularly in building robust back-end systems and user-friendly front-end applications. Adept at collaborating with cross-functional teams in fast-paced environments, with a strong emphasis on Agile methodologies and DevOps practices.

Experience

Senior Software Engineer

Tech Solutions Inc. - West Lindaville, NY
March 2020 - Present

- Led the development of a **Content Management System** that increased content publishing speed by 40%, utilizing **Angular** for the front end and **PostgreSQL** for the database.
- Implemented **Docker** and **Kubernetes** to streamline the deployment process, resulting in a 30% reduction in deployment times and improved scalability.
- Mentored junior developers in **Go** and **Rust**, promoting best practices and enhancing team productivity.

Software Developer

Innovatech Labs - West Lindaville, NY
June 2016 - February 2020

- Developed a secure, high-availability **Payment Processing System** that processed transactions with a 99.9% uptime, leveraging **Node.js** and **PostgreSQL**.
- Collaborated in an Agile team to deliver a **Mobile App** for e-commerce that achieved over 10,000 downloads within the first month of launch, utilizing **Django** for the backend and **Vue.js** for the frontend.
- Enhanced system performance by optimizing existing code and databases, resulting in a 25% decrease in load times.

Junior Developer

Startup Hub - West Lindaville, NY
January 2015 - May 2016

- Assisted in the development of various web applications using **Angular** and **Node.js**, contributing to a 15% increase in user engagement.
- Participated in daily stand-ups and sprint reviews, fostering a team-oriented environment and adherence to Agile principles.
- Conducted code reviews and collaborated with senior developers to improve code quality and maintainability.

Skills

- **Docker:** Advanced
- **Rust:** Advanced
- **Go:** Advanced
- **PostgreSQL:** Advanced
- **Django:** Intermediate
- **Angular:** Expert
- **Data Science:** Intermediate
- **Kubernetes:** Intermediate
- **Vue.js:** Advanced
- **Node.js:** Expert

- **DevOps:** Expert
- **C++:** Intermediate

Projects

- **Content Management System:** A highly customizable CMS built using Angular and PostgreSQL, designed to enhance the content workflow for marketing teams, increasing efficiency by 40%.
- **Payment Processing System:** Developed a secure and scalable payment gateway that supports multiple payment methods, achieving a transaction success rate of 99.9%.
- **Mobile App:** Created a user-friendly mobile application for an e-commerce platform, which led to a significant increase in user acquisition and retention rates.

Certifications

- **Google Cloud Professional**
- **Scrum Master Certification**
- **Certified Kubernetes Administrator**

Education

Bachelor of Science in Computer Science
University of West Lindaville
Graduated: May 2014

Additional Information

- Passionate about open-source contributions and regularly participate in local hackathons.
- Actively engage in online programming communities, sharing knowledge and learning from peers.
