Kathleen Yoder

Email: grodriguez@example.net
Location: Michaelton

Summary

Detail-oriented and versatile software developer with over 5 years of experience in designing, developing, and maintaining scalable web applications. Proficient in a variety of programming languages and frameworks, I excel in creating efficient and innovative solutions. My expertise in Node.js and Microservices, combined with strong skills in Java and JavaScript, allows me to contribute effectively to complex projects. I am passionate about learning new technologies and continuously improving my skills.

Experience

Software Engineer

Tech Solutions Inc., Michaelton
June 2020 - Present
- Lead the development of a **Content Management System** that improved content delivery speed by 40%, leveraging **Node.js** and **Microservices** architecture. - Collaborated with cross-functional teams to implement a **Web Application** that increased user engagement by 30% through enhanced UI/UX, utilizing **Java** and **Angular**. - Implemented containerization of applications using **Docker**, which reduced deployment times by 50%.

Junior Developer

Innovatech, Michaelton
January 2018 - May 2020

- Developed and maintained web applications using **JavaScript** and **TypeScript**, enhancing performance and scalability. - Contributed to the migration of legacy systems to **Microservices**, improving system reliability and reducing downtime by 25%. - Assisted in the implementation of Agile methodologies, resulting in a 15% increase in team productivity.

Skills

- **Node.js** (Expert)
- **Microservices** (Advanced)
- **Java** (Advanced)
- **JavaScript** (Advanced)
- **TypeScript** (Advanced)
- **Angular** (Intermediate)
- **C++** (Intermediate)
- **Go** (Intermediate)
- **Docker** (Intermediate)
- **Redis** (Advanced)
- **React** (Beginner)

Projects

Content Management System

- Developed a robust CMS platform that allows users to easily manage digital content with a user-friendly interface. Integrated **Redis** for improved caching and data retrieval times.

Web Application

- Created a dynamic web application aimed at enhancing customer interaction, which included real-time chat features and user analytics, utilizing a combination of **Node.js**, **JavaScript**, and **Angular**.

Certifications

- **Docker Certified Associate**
- **Scrum Master Certification**

Education

Bachelor of Science in Computer Science
Michaelton University, Michaelton
Graduated: May 2017
- Relevant Coursework: Software Development, Database Management, Web Technologies, and Agile Project Management.
