Experience

Senior Software Engineer

Company: Tech Innovators, Inc.
Industry: E-commerce
Size: Enterprise
Duration: 2018 - Present
- Developed a microservices architecture for a scalable web application, improving system performance by 30%. - Implemented an API gateway to streamline integrations with third-party services, enhancing user experience. - Collaborated with cross-functional teams to design and launch an e-commerce platform that increased sales by 25%.

Software Developer

Company: Bright Solutions, LLC
Industry: FinTech
Size: Startup
Duration: 2015 - 2018
- Designed and maintained high-performance backend systems using C++ and PostgreSQL for financial transaction processing. - Integrated Redis for caching solutions, resulting in a 40% reduction in response times for critical API calls. - Spearheaded the transition to Docker and Kubernetes for containerized deployments, leading to more efficient development workflows.

Junior Developer

Company: CodeCrafters, Ltd.
Industry: Software Development
Size: Startup
Duration: 2014 - 2015
- Assisted in the development of web applications using Django and JavaScript, focusing on responsive design and user engagement. - Participated in Agile ceremonies and contributed to the Scrum process, ensuring timely delivery of project milestones.
