Summary

Passionate and results-oriented programmer with over 5 years of experience in software development and a strong focus on backend technologies. Proficient in building scalable applications and optimizing performance. A fast learner with a keen interest in machine learning and cloud technologies. Seeking to leverage expertise in Python and advanced JavaScript to contribute to innovative projects.

Experience

Senior Software Developer

Tech Innovations Inc. – Gregoryfurt, Germany
June 2020 – Present
- Developed an **E-commerce Platform** that increased sales by 30% within the first quarter post-launch by implementing a user-friendly interface using **Vue.js** and **MongoDB**. - Designed and built a **Payment Processing System** that securely handled over 10,000 transactions per day, enhancing user trust and satisfaction. - Collaborated with cross-functional teams to create a **Data Analytics Dashboard** that provided insights leading to a 25% reduction in operational costs.

Software Engineer

NextGen Solutions – Gregoryfurt, Germany
January 2018 – May 2020
- Contributed to a **Content Management System** that streamlined content updates for over 100 clients, improving client engagement by 40%. - Utilized **Docker** for

containerization, which improved deployment times by 50% and ensured consistency across different environments. - Implemented machine learning algorithms that predicted user behavior, resulting in a 15% increase in user retention rates.

Skills

- **Python**: Expert
- **JavaScript**: Advanced
- **C++**: Advanced
- **MongoDB**: Advanced
- **Git**: Advanced
- **Docker**: Intermediate
- **Vue.js**: Intermediate
- **Machine Learning**: Intermediate
- **AWS**: Beginner
- **Java**: Beginner
- **Redis**: Beginner

Projects

- **E-commerce Platform**: Built a full-stack e-commerce solution that integrated payment gateways, inventory management, and analytics tools, facilitating a seamless shopping experience.
- **Payment Processing System**: Developed a secure and scalable payment gateway, reducing transaction times by 20%.
- **Data Analytics Dashboard**: Created a comprehensive dashboard for real-time data visualization, enhancing decision-making for business stakeholders.
- **Content Management System**: Designed a CMS that allowed non-technical users to manage their content effortlessly, leading to increased customer satisfaction.

Education

Bachelor of Science in Computer Science

University of Technology – Gregoryfurt, Germany

Graduated: 2017

- Relevant Coursework: Data Structures, Machine Learning, Web Development, Database Management.

Certifications

- **Certified Python Developer** – Python Institute (2021)
- **JavaScript Algorithms and Data Structures** – freeCodeCamp (2020)
- **Docker Essentials** – IBM (2022)

Additional Information

- **Languages**: Fluent in English and German.
- **Interests**: Exploring emerging technologies in AI, contributing to open-source projects, and attending tech meetups.
