# Steven Garcia

**Email:** gilesjohnathan@example.net
**Location:** North Lisa

## Summary

Passionate and results-driven software developer with over 5 years of experience in building scalable web applications and data-driven solutions. Proficient in JavaScript and Node.js, with a strong foundation in machine learning and data science. Adept at collaborating with cross-functional teams to deliver high-quality software that meets client needs. Eager to contribute to innovative projects and further enhance technical skills.

## Experience

### Software Engineer

**Tech Innovators Inc.** – North Lisa, CA
*June 2020 – Present*

- Developed a **Data Analytics Dashboard** that processed over 1 million data points daily, improving data visualization for clients and increasing user engagement by 30%.
- Collaborated with data scientists to implement **machine learning algorithms**, which reduced processing time by 25% for complex data sets.
- Managed a team of 4 developers in adopting **DevOps** practices, resulting in a 40% decrease in deployment times and a significant reduction in bugs reported post-launch.

## Full Stack Developer

**Creative Solutions Co.** – North Lisa, CA
*September 2018 – May 2020*

- Spearheaded the design and development of a **Real-time Chat System** using Node.js and WebSocket technology, enhancing user interaction and retention by 20%.
- Implemented **MySQL** database solutions that optimized data retrieval times by 50% through effective indexing and query optimization.
- Contributed to the company's transition to **Docker**, containerizing applications to streamline deployment processes across different environments.

---

# Skills

- **JavaScript**: Advanced
- **Node.js**: Advanced
- **Machine Learning**: Advanced
- **MySQL**: Expert
- **Java**: Intermediate
- **Docker**: Beginner
- **Redis**: Intermediate
- **Data Science**: Advanced
- **DevOps**: Intermediate

---

# Projects

## Data Analytics Dashboard

- Developed a comprehensive dashboard that integrated various data sources, enabling users to visualize trends and insights seamlessly.
- Utilized advanced data modeling techniques to enhance the dashboard's predictive capabilities.

**Real-time Chat System**

- Architected a scalable chat system that handled thousands of simultaneous connections, ensuring low-latency communication.
- Implemented user authentication and data encryption to maintain high security standards.

# Education

**Bachelor of Science in Computer Science**
**University of North Lisa** – North Lisa, CA
*Graduated: May 2018*

# Certifications

- **Certified Data Scientist** – Data Science Institute, 2021
- **JavaScript Developer Certification** – Tech Academy, 2019
