**Location:** Aaronside

## Summary

Passionate and results-driven software developer with a strong background in web development and machine learning. With expertise in Django and JavaScript, I have successfully delivered multiple projects, ranging from e-commerce platforms to data analytics dashboards. Known for my collaborative spirit and problem-solving skills, I am eager to leverage my knowledge of microservices and cloud computing to drive innovative solutions.

## Experience

### Software Developer

**Tech Innovations Inc.** | Aaronside, UK

*January 2021 - Present*

- Developed a **full-stack e-commerce platform** using Django and MongoDB, enhancing user experience and increasing sales by **30%** over six months.
- Collaborated with a team of five to design and implement a **mobile app** that integrates with the main web application, achieving a **4.9-star rating** on app stores.
- Spearheaded the creation of a **data analytics dashboard** that provides real-time insights, reducing reporting time by **40%**.

### Junior Developer

**Creative Solutions Ltd.** | Aaronside, UK

*June 2019 - December 2020*

- Assisted in the development of a **machine learning pipeline** that improved model accuracy by **25%**, utilizing Python and various ML libraries.
- Maintained version control and collaboration practices using **Git**, enhancing team productivity and code quality.
- Participated in agile ceremonies as a **Scrum Master**, facilitating sprints and improving team velocity by **20%**.

---

## Skills

- **Django:** Expert
- **JavaScript:** Advanced
- **TypeScript:** Advanced
- **MongoDB:** Advanced
- **Machine Learning:** Advanced
- **Docker:** Intermediate
- **Angular:** Intermediate
- **Git:** Expert
- **Microservices:** Beginner
- **Data Science:** Beginner
- **AWS:** Advanced

---

## Projects

- **E-commerce Platform:** Led the design and development of a comprehensive online store with personalized user experiences, integrating payment gateways and inventory management.
- **Mobile App:** Developed a user-friendly mobile app that syncs with the web platform, utilizing Angular and RESTful APIs, attracting over **5,000 downloads** in the first month.

- **Web Application:** Created a responsive web application for managing customer data and analytics, resulting in improved customer engagement metrics by **35%**.
- **Machine Learning Pipeline:** Designed a scalable ML pipeline for predictive analytics, reducing processing time and improving result accuracy.
- **Data Analytics Dashboard:** Developed a dashboard for visualizing complex data sets, enabling non-technical users to derive insights quickly.

---

# Education

**Bachelor of Science in Computer Science**
**University of Aaronside** | Aaronside, UK
*Graduated: May 2019*

---

# Certifications

- **Scrum Master Certification** - Agile Alliance, 2020

---

# Interests

- Exploring new programming languages and frameworks
- Contributing to open-source projects
- Participating in hackathons and coding challenges

---
