Summary

Passionate and results-driven software engineer with over 5 years of experience in developing scalable web applications and cloud-based solutions. Proficient in leveraging a diverse technology stack to deliver high-quality software solutions. A proven track record of successfully managing projects from conception to deployment with a focus on performance and efficiency.

Experience

Software Engineer

Tech Innovations Inc. - Remote

June 2020 - Present

- Developed a **Content Management System** using **Python** and **Flask**, improving content upload speeds by 30%.
- Collaborated with cross-functional teams to build a **Real-time Chat System** leveraging **AWS** and **Docker**, which increased user engagement by 50%.
- Implemented a **Machine Learning Pipeline** using **Python** and **FastAPI**, resulting in a model accuracy improvement of 20%.

Junior Developer

NextGen Solutions - Robertview
January 2018 - May 2020

- Assisted in creating a **Data Analytics Dashboard** with **MySQL** and **JavaScript**, enabling data-driven decision-making for clients.
- Contributed to a **Payment Processing System** using **Go** and **PostgreSQL**, which handled over 2,000 transactions per day with zero downtime.
- Engaged in code reviews and collaborated with senior developers to improve code quality and team efficiency.

Skills

- **Flask**: Advanced
- **Docker**: Intermediate
- **MySQL**: Expert
- **Go**: Advanced
- **TypeScript**: Intermediate
- **Python**: Advanced
- **JavaScript**: Advanced
- **Kubernetes**: Expert
- **PostgreSQL**: Expert
- **FastAPI**: Advanced
- **AWS**: Expert
- **Angular**: Beginner

Projects

- **Content Management System**: Designed and implemented a robust CMS that streamlined content management and improved user experience.
- **Real-time Chat System**: Engineered a scalable chat solution that supports thousands of concurrent users, enhancing community interaction.
- **Machine Learning Pipeline**: Developed a pipeline for automating model training and deployment, significantly reducing the time to market for new features.

- **Data Analytics Dashboard**: Created an interactive dashboard that visualizes key performance metrics, aiding stakeholders in strategic planning.
- **Payment Processing System**: Built a secure payment gateway that integrates with various payment providers, ensuring quick and reliable transactions.

Certifications

- **Google Cloud Professional**: Certified in cloud architecture and services, demonstrating proficiency in deploying and managing applications on Google Cloud Platform.

Education

Bachelor of Science in Computer Science
University of Robertview - Robertview
Graduated: May 2017
