Phone: (436) 908-2877 x021

Location: Debbiebury

Hourly Rate: $88/hr

Total Experience: 6 years

Summary

Results-oriented programmer with 6 years of experience in software development and data analytics. Proficient in multiple programming languages and databases, including Python and MongoDB. Strong problem-solving skills and adept in Agile methodologies, with a focus on cross-functional communication and conflict resolution.

Education

PhD in Artificial Intelligence

Technical University of Munich

Rank: #20, GPA: 3.55

Skills

- **Python:** Intermediate (3 years)
- **Java:** Intermediate (3 years)
- **C++:** Beginner (1 year)
- **MongoDB:** Advanced (6 years)
- **PostgreSQL:** Advanced (5 years)
- **Terraform:** Beginner (1 year)

- **Git:** Intermediate (2 years)
- **Jenkins:** Intermediate (2 years)

Soft Skills

- Problem Solving
- Agile Methodology
- Conflict Resolution
- Cross-functional Communication

Languages

- **English:** C1
- **French:** B2
- **Polish:** C2

Certifications

- **Scrum Master Certification**
  Score: 814, Expiration: 2028-07-29

- **Certified Kubernetes Administrator**
  Score: 935, Expiration: 2026-12-29

Experience

Software Developer

Tech Innovations Inc. (FinTech, Startup)
June 2020 - Present
- Developed a comprehensive **Data Analytics Dashboard** that improved data visualization for financial metrics, resulting in a 30% increase in decision-making efficiency. - Collaborated with cross-functional teams to design a responsive **Web**

Application for users to manage their financial portfolios effectively. - Implemented API Gateway services for secure data exchange between microservices, enhancing application performance and security.

Database Engineer

Data Solutions Corp. (Enterprise)
January 2018 - May 2020
- Led the migration of legacy databases to **PostgreSQL** and **MongoDB**, streamlining operations and improving data retrieval speeds by up to 50%. - Designed and optimized database schemas for various applications, contributing to the successful launch of an innovative **API Gateway** for integrating third-party services. - Provided training and support to junior developers on best practices in database management and version control using **Git**.

Junior Programmer

Creative Software Labs (Startup)
May 2016 - December 2017
- Assisted in the development of a client-facing **Web Application**, focusing on front-end features using **Java** and back-end integration with **MongoDB**. - Participated in Agile sprints, contributing to daily stand-ups and retrospective meetings, fostering a collaborative development environment. - Gained foundational experience with **Terraform** and **Jenkins**, aiding in the automation of deployment processes.
